A Planet For The President

Things are not going well for the President of the United States. He wants Americans to be adored by freedom-loving people everywhere. Instead, half the planet seems to be in a permanent state of insurrection against US power. What's more, there's a growing environmental crisis that even he can't ignore. It's one thing when there are floods in Bangladesh, quite another when almost 2,000 Americans die in flooding in Texas. Against this background, the President is persuaded of one simple fact: there are too many people in the world. Only radical action can deal with the problem. By which his advisers mean reducing the number of people on the planet. In fact, getting rid of everybody - except Americans. **HC \$45.00 TP \$29.95**

Iain M Banks *The Algebraist*

Science Fiction space opera, but not set in The Culture, though it could be within the same universe. The Dwellers are an alien race of floating gas bags living within most gas giant planets, cheerfully anachist, post civilisation, bumbling, aristocratic, who bet on pre arranged wars and hunt their own young. They are also rumoured to possess faster than light travel, a prize every other race covets. This is a story of spy missions, spaceship battles, intrigue, revenge, cruel humour, adventure and friendship. **HC \$49.95 TP \$29.95**

Review by Tim M

Dwellers are a race of sentient, occasionally space faring floating gas bags inhabiting most gas giant planets in the universe. They are classified as Slow because of their long lifetimes (billions of years), unlike races such as humans who are Quick. Dwellers amuse themselves with gambling, parties, practical jokes, hunting their own young, and scheduling internal wars as spectator sport. They do not sense pain, and have ambitions like "In my life I want to have a go at everything." Dwellers participate in voluntary amateur hobby clubs that operate the military, medical, diplomacy, technology, etc functions of a working society, for they don't have government.

Most of the story takes place within the interestingly original setting of a gas giant planet, amongst the anarchist, post civilisation Dwellers. The local Quick mostly human civilisation are spread across the rest of the system's planets, and are threatened with invasion and war. The inward looking Dwellers are uninterested, after all, why would anyone attack them? Seer Fassin Taak is a human academic and Dweller studies specialist who finds himself conscripted and sent on a spying mission into Dweller society. Dwellers claim to have faster than light travel, so the Quick want it. Fassin knows Dwellers brag a lot, and there is no evidence of them ever using FTL travel, but the Mercatoria military are desperate, and this prize, though unlikely, is great. Fassin is the unwilling focus of international interstellar attention, but it is the Dwellers who are the lovable heroes of the story. Fassin's character develops with flashback scenes of his past, as his ethics and loyalties clash, into a very real person with secrets, hopes, grief and loves. Highly recommended.

Stephen Donaldson*The Runes of the Earth*

Long ago Thomas Covenant died defeating Lord Foul, years in his "real" world of middle rural America, thousands of years in The Land. Now Lord Foul stirs again, poisoning The Land, using Covenant's son and wife against Dr Linden Avery. When he threatens Avery's adopted autistic son, no price is too high to protect him, even risking The Land itself and those who live there. **HC \$49.95**

Review by Tim M

Donaldson's earlier two trilogies follow Thomas Covenant's quests through The Land to thwart the evil Lord Foul. It has been over twenty years since these books were released, now we can return to The Land. In this volume, it is Dr Linden Avery who is the lead character. Slow and ponderous, the plot pauses at every opportunity for navel gazing. To read this as merely a story is to be disappointed. The action is too slow, the descriptive metaphors deep and frequent. The vocabulary will test many readers. I found myself referring to a dictionary several times. However, this is a must read for those who fondly remember the earlier books, but with the slow pace, I don't see the nostalgia value alone sustaining readers through all four new volumes. That said, I greatly enjoyed this book because it reintroduced me to the peoples and features of The Land, and I was reminded how I loved it all as I read about them years ago. Not only did I remember Donaldson's stories, I was taken back to where and when I was when I read the earlier books. Donaldson has power to evoke memories, set and examine moral issues and to inspire reflection. As I read, I would continually ask myself: What would I do in this character's situation? This is why I say Donaldson writes good religious fiction. His characters search for meaning in their lives and their peoples' histories. He doesn't try to deliver moral messages but leads the characters into tests of faith. Some grow in their understanding of their reality, while others shrink their horizons to exclude the dilemmas, and some do both.

This is a moral story like the earlier books, but with a new, more mature perspective than the earlier series. In the earlier books the emphasis was on personal identity and development, however this story examines the ethical issues of protecting one's child, of community responsibility and of trust. A parent protecting their child has an ethical certitude where other issues no longer matter. Characters are tested to put their faith in someone whose judgement they trust, but then follow them into moral decisions they would take themselves.

If you have not read the earlier volumes, you can start with this one safely as it is not lacking in explanations of the history of The Land. It is not a grab and hold the reader adventure yarn, but a deep, heavy and challenging tome. Do not read it to escape reality, like many light fantasy novels, but rather to reflect upon the real world.

Ramsey Campbell*The Darkest Part of the Woods*

The lives and destinies of the members of the Price family become intertwined with the ancient forest of Goodmanswood, from Lennox

Price who discovers a hallucinogenic moss that becomes the focus of a cult, to his grandson's sexual encounter in the heart of the forest, to his daughter, Heather, who also feels the summoning of Goodmanswood. **PB \$17.95**

Gary Crookes*The Sorenson 4 Incident*

The story is set in the future, in a time when planets are being colonized and the world has finally united under one government. But the stability is not yet there, and the colony project is too costly. The division in the newly formed Unified Government over the colony project could split it in two. When communications go down on the Sorensen 4 mining colony in suspicious circumstances, a secret meeting is convened to decide on a course of action. Can they resolve the problem without arousing the critical eye of the media? And what exactly will they find on Sorensen 4 when they get there? **PB \$17.95**

Cecelia Dart-Thornton Australian Author*The Iron Tree*

Jarred, recently come of age, is leaving the sun-scorched desert village that has always been his home. He sets out with a band of friends to explore the world, to see the mighty and beautiful kingdom of the north, a place he has only ever dreamed of, and to seek out the truth about his father, who came to the village a stranger and departed when Jarred was ten, never to return. But he left Jarred a powerful gift, an amulet that would protect him from all harm, and extracted from his son the promise that he would wear it evermore. And Jarred has done so, although he has come to recognise its mixed blessings. **TP \$30.00**

Tom De Haven*Walker of Worlds*

Jack, a Walker, has learned a secret-one that could mean the end of all the worlds, not just his own. He has earned an enemy-and the Mage of Four, Mage of Luck, is a powerful enemy indeed. Jack must flee to our world, where he gathers a small group of unlikely, sometimes unwilling allies. In the ultimate confrontation, their efforts will determine the fate of the universes. **PB \$17.95**

Gideon Defoe*The Pirates!*

1837: the Victorian Era approaches and the golden age of piracy draws to a close. Worried that his pirates are getting bored with a life of winking at pretty native ladies, sitting about on tropical beaches, and trying to stick enough jellyfish together to make a bouncy castle, the Pirate Captain decides it's time they had an adventure. A chance encounter with the young Charles Darwin - embarked upon the voyage of discovery that will one day make him famous - leads the Captain and his rag-tag crew from the exotic Galapagos Islands to the fog filled streets of Victorian London, where they encounter grisly murder, vanishing ladies, a diabolical Bishop, the Elephant Man, and have an exciting trip to the zoo. **HC \$19.95**

Blood Canticle

Lestat has returned, and, moving through the worlds of Blackwood Farm and the Mayfair family, he finds himself ensnared by love and loyalty. Here are all of the brilliantly conceived Anne Rice characters that make up these two worlds of vampires and witches: Mona Mayfair, who's come to Blackwood Farm to die and is brought into the realm of the undead...her uncle, Julian Mayfair, guardian of the family, determined to forever torment Lestat because of what he has done to Mona...Rowan Mayfair, brilliant neurosurgeon, a true witch, a woman who attracts spirits to herself, casts spells on others and finds herself dangerously drawn to the undead and all-powerful Lestat...her husband, Michael Curry, hero of the Mayfair Chronicles, who seeks Lestat's help with the temporary madness of his wife...Ash Templeton, a 5,000 year old Taltos, whose genes live on in the Mayfairs, who has taken Mona's child...Patsy, a country-western singer, killed by Quinn Blackwood and dumped in a swamp, who returns as a ghost to avenge her own death...and at the book's centre - the Vampire Lestat, once the epitome of evil, now following the transformation set in motion with Memnoch the Devil, struggling with his vampiredom, yearning for goodness and purity and love as he saves Patsy's ghost from the dark realm of the Earthbound, uncovers the mystery of the Taltos, and unselfishly decides the fate of his beloved Rowan Mayfair. **PB \$19.95**

There Will Be Dragons

In the future there is no war, no disease nor ill-timed death. The world is a paradise—and then, in a moment, it ends. The council that controls the Net falls out and goes to war. Everywhere people who have never known a moment of want or pain are left wondering how to survive. But scattered across the face of the earth are communities which have returned to the natural life of soil and small farm. In the village of Raven's Mill, Edmund Talbot, master smith and unassuming historian, finds that all the problems of the world are falling in his lap. Refugees are flooding in, bandits are roaming the woods, and his former lover and his only daughter struggle through the Fallen landscape. Enemies, new and old, gather like jackals around a wounded lion. But what the jackals do not know is that while old he may be, this lion is far from death. And hidden in the past is a mystery that has waited until this time to be revealed. Cross Edmund Talbot at your peril, for a smith is not all he once was. **PB \$19.95**

The Snow

This is how the world will end: 'The snow started falling on the sixth of September, soft noiseless flakes filling the sky like a swarm of white moths, or like static interference on your TV screen, whichever metaphor, nature or technology, you find the more evocative. Snow everywhere, all through the air, with that distinctive sense of hurrying that a vigorous snowfall brings with it. Everything in a rush, busy-busy snowflakes. And, simultaneously, paradoxically, everything is hushed, calm, as quiet as cancer, as white as death. 'And at the beginning people were happy.' But the snow doesn't stop. It falls and falls and falls. Until it lies three miles thick across the whole of the earth. Six billion people have died. Perhaps 150,000 survive. But those 150,000 need help, they need support, they need organising, governing. And so the lies begin. Lies about how the snow started. Lies about who is to blame. Lies about who is left. Lies about what really lies beneath.

Ruins of Gorlan: Rangers Apprentice 1

Will is small for his age, but agile and energetic. All his life, he has longed to be a warrior and to follow in the footsteps of the father he never knew, so he is devastated when he is rejected as an apprentice to Castle Redmont's Battleschool. He's no happier when he's assigned instead to the Ranger Corps, the Kingdom's secret service, as the Rangers are a mysterious group whose uncanny ability to move about unseen is thought by many to be the result of black magic. Will begins training under the dour and enigmatic Halt, and reluctantly learns all the fieldcraft and archery he will need to become a fully-fledged Ranger. But Will soon finds himself needing all his new-found skills as he and Halt set off on a desperate mission to prevent the assassination of the King. **PB \$14.95**

Review By Dan

I found *Ruins of Gorlan* to be one of those books that is impossible to put down. Yes, I know it's aimed a younger audience (9-13 year old reading level) but it has all the elements that are vital for a truly enjoyable story. The background of the world is set up in the opening chapters, and the key characters are introduced. The story has characters facing some difficult decisions at times, and gives good depictions of the cause and effect of the choices made. Although this is the first book in a series, it is self contained and will leave readers wanting more.

Mechwarrior Dark Age: Blood of the Isle

by Loren L Coleman

Review by John Fallon

In the Year 3134 AD, the Republic of the Inner Sphere is starting to fall apart. Devilin Stone, the Republic's founder has vanished, the HPG communications network has been sabotaged and various factions throughout the Inner Sphere are stirring the embers of war.

In 3050, the Clan invasion was beaten back by the Armies of the Great Houses in a united effort. But 84 years on, Clan Jade Falcon is taking full advantage of the Republic's disarray and continuing with the Clan's push towards the conquest of Terra.

In a previous novel "Flight of the Falcon" The Jade Falcon conquest of the Planet Skye is halted by Tara Campbell, Countess of Northwind. With the Highlanders, Skye Militia and the help of the Steel Wolves, the Falcons are sent packing. But the Falcons do not settle for second prize and are determined to finish what they started.

Tara Campbell, still on Skye, is now faced with a Falcon army hell-bent on vengeance. Desperate for allies, she brokers a tenuous alliance between the Duke of Skye and his estranged son, Landgrave Jasek Kelswa-Steiner, founder of the Stormhammers

But as the battle for Skye progresses, they begin to realise, that in order to save the planet in the long run - they may have to lose it first.

Loren L. Coleman has produced another great addition to the Battletech universe. He has written many of the Battletech novels and his experience shows in the quality of his writing. With a healthy dose of mech battles and politics, foes becoming allies and a hint of foreshadowing of events to come, this is a must for your Mechwarrior collection.

Voyage of the Shadowmoon

By Sean McMullen

By Charmaine Spears.

When I first started to read this book I wasn't quite sure what to expect seeing I hadn't read any of this authors work before but once I started to read it I found it hard to put down. The book is classed as fantasy and although that is mainly the case there's just enough of a dash of what almost could be perceived as Science Fiction in it to make it interesting and very different from the usual fantasy genre.

Basically without giving away too much of a plot it follows the story, the voyages, and the trials and tribulations of a group of very interesting characters and their connections to the boat of the title Shadowmoon.

The plot is as complex as the characters of the novel it twists and turns and backtracks and goes through all number of paths that you don't quite know what is going to happen next, so much in fact you end up not wanting to put the book down. There is everything in here that makes a great epic fantasy, an interesting world, romance, adventure, humour, heroes and villains, magic although magic is definitely handled differently in the novel than it is in books of the same genre you really have to read it to see what I mean by that.

As to the characters themselves no one is what they seem, they all have hidden depths are well written and complex and all have agendas of their own, some of them even start out as one thing and finish it as something totally different.

But although the story is complex and extremely well written and thought out it has been written in a lively informal prose that is very easy to read and to follow.

Basically I just want to say I loved the book and to be honest it is the best fantasy book I have read for quite a while, the best book I have read this year in fact, I thoroughly enjoyed it and am eagerly looking forward to the sequel.

If you're looking for a recent fantasy novel that is just that little different from most mainstream fantasy genre novels, this is it, it is definitely worth a read.
