Patty Jansen, a past member of the Infinitas Writers' group, recently had her novella published in *the L Ron Hubbard Presents Writers of the Future 27* anthology. This also meant the publishers flew her to the US for the awards ceremony. Patty attended last month's Writer's Group meeting on 16th July, regaling them with anecdotes of meeting many famous US authors and convinced most to purchase the anthology. <http://www.infinitas.com.au/ProductsByAuthor.php?autid=33272>

Dirk Gently's Holistic Detective Agency by Douglas Adams, reviewed by Len Newland

<http://www.infinitas.com.au/Product.php?bar=9780330301626>

Readers who remember Hitch Hiker's Guide To The Galaxy will enjoy this novel by the same author, although this novel isn't the same sort of space opera. Dirk Gently was published in 1987, but my copy came in 2010; evidently it's still in print. Although an old novel, the humour is still fresh, being Adams' dry wit style. The horse, for example, spends a page planning out its day in its field, but being free to do so, it scraps the plan and simply moves to a spot under a tree. Unlike the Guide, which was written as a series of adventures for BBC radio, Dirk Gently is clearly written as a novel, with Dirk gathering odd clues into a climax mystery solution. Not to give the plot away while giving an idea of genre, I'll just say the novel involves outer space aliens, time travel and ghosts in a logical and interesting plot.

I'm not sure the title is entirely appropriate. Although Dirk Gently solves the problem, he doesn't appear until the middle of the novel, and is mentioned only once prior to that in chapter 4 (as Svlad "Dirk" Cjelli). The central story character is one Richard MacDuff; even Richard doesn't appear until chapter 4, although he might have been named in chapter 3, in which his girlfriend frets over his no-show for a date. Chapter 2 features an Electric Monk (a labour saving device that will believe television advertising, news stories and politicians' statements so you don't have to); despite the prominence of its introduction, though, the Monk is only a bit character. Chapter 1 is seemingly disconnected from the novel until the third-last chapter (34); it's set 4,000,000,000 years before the rest of the novel, and that date would have been better indicated at the start. While an untidy opening might matter less in a comedy novel, I'd reduce Dirk Gently to only four stars of a possible five because of it.

Aside from the opening, I found the novel thoroughly enjoyable for both the humour and the plot. For those who liked Marvin the Paranoid Android in the Guide, there's a similar character here: Dirk Gently's ex-secretary. She sits in his office declaring she's not there, pointedly refusing to answer the phones, usher the clients, or buy Dirk's pizzas and cigarettes. That's because he doesn't pay her. Economically insupportable, but in line with Adams' humour. Overall the novel is entertaining and interesting, and a good light read.

Heaven's Shadow by David S Goyer and Michael Cassutt, reviewed by Tim

<http://www.infinitas.com.au/Product.php?bar=9780230760318>

This is a near future scientific thriller of a great science discovery. It is a first contact story.

A large near earth object (asteroid dubbed Keanu) wanders towards earth, so NASA diverts a moon landing mission to land on Keanu instead. Imagine what scientific discoveries could be made! However, even though the cold war is over there is competition from an alliance of India, Russia and Brazil with their own space program. Who will get there first to claim the prize? The politics is not just international but interagency and within the office. Also space missions require some astronauts to stay behind in the support team. We follow the unfolding events on the space ship, at home and with the support team (but only the US side) and on Keanu.

Of course, there comes a moment of "Houston we have a problem".

No surprise but the NEO is not just a lump of inert rock. Aliens appear who are very alien with impressive technology yet struggle to communicate with mere humans. Astronauts work as a team or die. Scientific knowledge is worth more than personal safety, the clear and present danger must be dealt with.

The story and style reminded me of Robert J Saywer, Michael Crichton and Ben Bova, with scientists doing science in space to save themselves, think Arthur C Clarke and Issac Asimov. It is very American and felt as if written with a movie in mind; include rugged heroes, pretty women, difficult teenagers, diverse ethnic groups, an external threat, office politics, secret agents, building tension, a love triangle, religious references, explosions, fights, nudity, ambition, action, cool gadgets. Indeed movie rights have already been optioned at over a million dollars. If you like the big budget Hollywood style science fiction, you will like this.

***The Griffin's Flight* by K J Taylor, reviewed by Robert Gough**

<http://www.infinitas.com.au/Product.php?bar=9780732288532>

The Griffin's Flight continues the story of the "blackrobe" Arrenadd Taranasaii, the Griffiner.

If you enjoyed Christopher Paolini, or Kate Elliott's Crossroad trilogy's or any of the other series where humans rely on the magical creatures that they fly with, you will most likely enjoy reading this series as well.

I was going to just read the 2nd book for the purpose of review but decided to take a chance and buy the first book so I could appreciate the characters better and it was worth it.

I couldn't help but cringe as I read the story in regard to the trials, taunts and inner thoughts of the lead character by the general populace that he was a part of, and the author's portrayal of his descent into madness which was brought on by the history of his people and their subjugation at the hands of the lands which they had originally tried to invade and conquer but failed to do.

There were times that I just wanted to stop reading due to the stupidity of the main character and his inner thoughts that influenced his actions. It was easy to see that he was suffering badly from delusions although after putting it down I couldn't stop thinking about it and had to return to the story.

The first book *The Dark Griffin* was entertaining and while the main plot lines were repeated in the 2nd book you really need to read them in order to fully appreciate the storyline.

I look forward to the release of the 3rd installment, to a certain extent you can probably guess the way it will unfold but I have developed a fondness for the fool main character and look forward to seeing if he overcomes his inner turmoil to fulfil the destiny that his God has set for him. As the 2nd book came to a close it looked like he had accepted his destiny and finally understood where he came from and where he needs to go.

Its the usual story line of the disadvantaged boy that becomes the hero of the world causing great changes to the peoples in it, but the author has created a world where it is the Griffins that have the magic and the people that ride on them being the lawmakers and reeves of the world. Jealously guarding their rule by controlling access to the ability to become a Griffiner.

***Foundling* by D M Cornish, reviewed by Garry P Dalrymple**

<http://www.infinitas.com.au/Product.php?bar=9781862916326>

Really something of a surprise! This is a book that was given to me by the Author (and Illustrator) who took part in the 2008 Freecon. (David was in fact the only writer to have 'Groupies' show up to the Freecon!) Science Fiction is what I read by preference but this book was a surprise and delight. It has copious drawings of characters and detailed maps, a real plus in following the story. The Story itself is something like *Oliver Twist* or the adventures of *Huckleberry Finn* in that under the pretext of a journey, *The Foundling's* path from Orphanage to first job appointment, we get to be introduced to the characters and set up of the Society of the book. The Society is vaguely Dickensian and Medieval but with bio-machines rather than steam engines driving River and Ocean going ships and a conflict / balance between 'Everymen' and 'Monsters' on land and sea rather than feuding kingdoms. As the Main character 'Rossamund', a boy with a girl's name, is a teenager / young Adult I presume that this is a 'Young Adult' book but in reading it I did not encounter any of the usual cut down / dumbed down / don't make much sense characters that seem to plague 'Fiction for Children', characters that say something but you can't understand how they would know that fact, or why they would be motivated to reveal it to the main character. It is also a novel and original world, it is not a 'Rightful Princess, Magic amulet and Dragon' type Fantasy. The story, or rather the first instalment of a series of books ends rather anti-climactically with Rossamunde awaiting the dawn of his first day as a Lamplighter with several cliff hanger issues revealed by farewells and a letter from friends. I was slightly disappointed at this, but breaking a story into stages is the commercial reality of Fantasy publishing these days. The edition I read presented the story exceptionally well. Major characters encountered in the story are represented by the Writer's own Drawings, and the maps are better realised than in my edition of *LOTR*. The final third of the volume is a glossary of terms used in the book (series) and was interesting enough to read beyond the necessity of having to identify strange words (archaicisms?) used by the Author. I think this book / series is well worth getting with the intention of reading a chapter a night to small children ahead of bedtime, with slightly older children able to independently explore the world of the book through the Glossary and appendices as the book / series seems to have a depth about it that should be inviting for children to explore.

A Pleasure to Burn: Fahrenheit 451 Stories TP \$29.95 www.infinitas.com.au/Product.php?bar=9780062071026

Ray Bradbury's novel Fahrenheit 451 is an enduring masterwork of twentieth-century American literature—a chilling vision of a dystopian future built on the foundations of ignorance, censorship, and brutal repression. The origins and evolution of Bradbury's darkly magnificent tale are explored in *A Pleasure to Burn*, a collection of sixteen selected shorter works that prefigure the grand master's landmark novel. Classic, thematically interrelated stories alongside many crucial lesser-known ones—including, at the collection's heart, the novellas "Long After Midnight" and "The Fireman"—*A Pleasure to Burn* is an indispensable companion to the most powerful work of America's preeminent storyteller, a wondrous confirmation of the inimitable Bradbury's brilliance, magic . . . and fire.

Meet Harry Dresden, Chicago's first (and only) Wizard PI. Turns out the everyday world is full of strange and magical things - and most of them don't play well with humans. That's where Harry comes in. But he's forgotten his own golden rule: magic - it can get a guy killed. Which didn't help when he clashed with unknown assailants with his murder in mind. And though Harry's continued existence is now in some doubt, this doesn't mean he can rest in peace. Trapped in a realm that's not quite here, yet not quite anywhere else, Harry learns that three of his loved ones are in danger. Only by discovering his assailant's identity can he save his friends, bring criminal elements to justice, and move on himself. It would just be easier if he knew who was at risk. And had a (working) crystal ball. And access to magic. Instead, he is unable to interact with the physical world - invisible to all but a select magical few. He's also not the only silent presence roaming Chicago's alleys. Hell, he put some there himself. Now, they're looking for payback.

Ready player One CD - Unabridged \$75 www.infinitas.com.au/Product.php?bar=9780307913142

At once wildly original and stuffed with irresistible nostalgia, READY PLAYER ONE is a spectacularly genre-busting, ambitious, and charming debut—part quest novel, part love story, and part virtual space opera set in a universe where spell-slinging mages battle giant Japanese robots, entire planets are inspired by Blade Runner, and flying DeLoreans achieve light speed.

It's the year 2044, and the real world is an ugly place.

Like most of humanity, Wade Watts escapes his grim surroundings by spending his waking hours jacked into the OASIS, a sprawling virtual utopia that lets you be anything you want to be, a place where you can live and play and fall in love on any of ten thousand planets.

And like most of humanity, Wade dreams of being the one to discover the ultimate lottery ticket that lies concealed within this virtual world. For somewhere inside this giant networked playground, OASIS creator James Halliday has hidden a series of fiendish puzzles that will yield massive fortune—and remarkable power—to whoever can unlock them.

For years, millions have struggled fruitlessly to attain this prize, knowing only that Halliday's riddles are based in the pop culture he loved—that of the late twentieth century. And for years, millions have found in this quest another means of escape, retreating into happy, obsessive study of Halliday's icons. Like many of his contemporaries, Wade is as comfortable debating the finer points of John Hughes's oeuvre, playing Pac-Man, or reciting Devo lyrics as he is scrounging power to run his OASIS rig.

And then Wade stumbles upon the first puzzle.

Suddenly the whole world is watching, and thousands of competitors join the hunt—among them certain powerful players who are willing to commit very real murder to beat Wade to this prize. Now the only way for Wade to survive and preserve everything he knows is to win. But to do so, he may have to leave behind his oh-so-perfect virtual existence and face up to life—and love—in the real world he's always been so desperate to escape.

A world at stake. A quest for the ultimate prize. Are you ready?

The Omen Machine (Richard and Kahlan) HC \$60 www.infinitas.com.au/Product.php?bar=9780765327727

Hannis Arc, working on the tapestry of lines linking constellations of elements that constituted the language of Creation recorded on the ancient Cerulean scroll spread out among the clutter on his desk, was not surprised to see the seven etherial forms billow into the room like acrid smoke driven on a breath of bitter breeze. Like an otherworldly collection of spectral shapes seemingly carried on random eddies of air, they wandered in a loose clutch among the still and silent mounted bears and beasts rising up on their stands, the small forest of stone pedestals holding massive books of recorded prophecy, and the evenly spaced display cases of oddities, their glass reflecting the firelight from the massive hearth at the side of the room.

Since the seven rarely used doors, the shutters on the windows down on the ground level several stories below stood open as a fearless show of invitation. Though they frequently chose to use windows, they didn't actually need the windows any more than they needed the doors. They could seep through any opening, any crack, like vapor rising in the early morning from the stretches of stagnant water that lay in dark swaths through the peat barrens.

The open shutters were meant to be a declaration for all to see, including the seven, that Hannis Arc feared nothing.

The Mall TP \$29.99 www.infinitas.com.au/Product.php?bar=9781848878860

Dan works at a bookstore in a deadly dull shopping mall where nothing ever happens. He's an angst-y-emo-kid who sells mid-list books to mid-list people for the minimum wage. He hates his job.

Rhoda has dragged her babysitting charge to the mall so she can meet her dealer and score some coke. Now the kid's run off, and she has two hours to find him. She hates her life.

Rhoda bullies Dan into helping her search, but as they explore the neon-lit corridors behind the mall, disturbing text messages lure them into the bowels of the building, where old mannequins are stored in grave-like piles and raw sewage drips off the ceiling. The only escape is down, and before long Dan and Rhoda are trapped in a service lift listening to head-splitting music. Worst of all, the lift's not stopping at the bottom floor.

Plummeting into the earth, Dan and Rhoda enter a sinister underworld that mirrors their worst fears. Forced to complete a series of twisted tasks to find their way out, they finally emerge into the brightly lit food court, sick with relief at the banal sight of people shopping and eating. But something feels different. Why are the shoppers all pumped full of silicone? Why are the shop assistants chained to their counters? And why is a cafe called McColon's selling lumps of bleeding meat?

Just when they think they've made it back to the mall, they realise their nightmare has only just begun ...

The Magician King (Fillory 02) HC \$49.95 www.infinitas.com.au/Product.php?bar=9780670022311

Return to Fillory in the riveting sequel to The New York Times bestseller and literary phenomenon of 2009--The Magicians.

The Magicians was praised as a triumph by readers and critics of both mainstream and fantasy literature. Now Grossman takes us back to Fillory, where the Brakebills graduates have fled the sorrows of the mundane world, only to face terrifying new challenges.

Quentin and his friends are now the kings and queens of Fillory, but the days and nights of royal luxury are starting to pall. After a morning hunt takes a sinister turn, Quentin and his old friend Julia charter a magical sailing ship and set out on an errand to the wild outer reaches of their kingdom. Their pleasure cruise becomes an adventure when the two are unceremoniously dumped back into the last place Quentin ever wants to see: his parent's house in Chesterton, Massachusetts. And only the black, twisted magic that Julia learned on the streets can save them.

The Magician King is a grand voyage into the dark, glittering heart of magic, an epic quest for the Harry Potter generation. It also introduces a powerful new voice, that of Julia, whose angry genius is thrilling. Once again Grossman proves that he is the modern heir to C.S. Lewis, and the cutting edge of literary fantasy.

Secrets of the Wolves (Wolf Chronicles 02) HC \$49.95 www.infinitas.com.au/Product.php?bar=9781416570004

Years of research into the world of wolves combines with mythical tale-telling to present a fantastical adventure set in a world filled with lore. The rules of the Wide Valley wolves were clear: Never consort with humans; never kill a human unprovoked; never allow a mixed-blood wolf to live. But they were rules destined to be broken.

Now, in the second riveting installment of The Wolf Chronicles the stakes are higher than ever. Young Kaala of the Swift River pack shattered the rules of the valley and exposed the lies hidden beneath them. Now, responsibility for the consequences rests with her. Along with her young packmates and the humans they have befriended, she must find a way for the wolves and humans of the Wide Valley to live in harmony. If they succeed, Kaala will finally prove herself worthy of her pack. But if she fails, the Greatwolves who rule wolf-kind will kill every wolf and human in the valley.

Told from the wolf's point-of-view and set 14,000 years ago in a time when the cultures of wolves and humans were not so different, Secrets of the Wolves transports us to a world where instincts are our only compass and cooperation between potential enemies could mean the difference between life and death.

The Last Four Things (Thomas Cale 02) HC \$49.95 www.infinitas.com.au/Product.php?bar=9780525952183

The epic story of Thomas Cale-introduced so memorably in The Left Hand of God--continues as the Redeemers use his prodigious gifts to further their sacred goal: the extinction of humankind and the end of the world.

To the warrior-monks known as the Redeemers, who rule over massive armies of child slaves, "the last four things" represent the culmination of a faithful life. Death. Judgement. Heaven. Hell. The last four things represent eternal bliss-or endless destruction, permanent chaos, and infinite pain.

Perhaps nowhere are the competing ideas of heaven and hell exhibited more clearly than in the dark and tormented soul of Thomas Cale. Betrayed by his beloved but still marked by a child's innocence, possessed of a remarkable aptitude for violence but capable of extreme tenderness, Cale will lead the Redeemers into a battle for nothing less than the fate of the human race. And though his broken heart foretells the bloody trail he will leave in pursuit of a personal peace he can never achieve, a glimmer of hope remains. The question even Cale can't answer: When it comes time to decide the fate of the world, to ensure the extermination of humankind or spare it, what will he choose? To express God's will on the edge of his sword, or to forgive his fellow man-and himself?

Steelhands HC \$49.95 www.infinitas.com.au/Product.php?bar=9780553807707

With Havemercy, Shadow Magic, and Dragon Soul, the acclaimed writing team of Jaida Jones and Danielle Bennett has fused magic and technology into something that can only be termed "magicpunk." Their distinctive style, featuring a chorus of quirky first-person narrators and brilliantly sophisticated world-building, has won these young writers the plaudits of fans and critics.

In the Volstov capital of Thremedon, Owen Adamo, the hard-as-nails ex-Chief Sergeant of the Dragon Corps, learns that Volstov's ruler, the Esar, has been secretly pursuing the possibility of resurrecting magically powered sentient robot dragons—even at the risk of igniting another war. That Adamo will not allow. Though he is not without friends—Royston, a powerful magician, and Balfour, a former corpsman—there is only so much Adamo and his allies can do. Adamo has been put out to pasture, given a professorship at the University. Royston, already exiled once, dares not risk the Esar's wrath a second time. And Balfour, who lost both hands in the climactic battle of the war, is now a diplomat who spends most of his time trying to master his new hands—metal replacements that operate on the same magical principles as the dragons and have earned him an assortment of nicknames of which "Steelhands" is the least offensive.

But sometimes help comes where you least expect it. In this case, from two first-year university students freshly arrived in Thremedon from the country: Laurence, a feisty young woman whose father raised her to be the son he never had, and Toverre, her fiancé, a brilliant if neurotic dandy who would sooner share his wife-to-be's clothes than her bed. When a mysterious illness strikes the first-year students, Laurence takes her suspicions to Adamo—and unwittingly sets in motion events that will change Volstov forever.

Zombies vs Nazis: A Lost History of the Walking Dead TP \$24.95 www.infinitas.com.au/Product.php?bar=9781616082505

Zombie expert Scott Kenemore (The Zen of Zombie) unearths a collection of top-secret lost documents from WWII (originally intercepted by the U.S. Signal Corps in 1941 and presented to Franklin Roosevelt in a confidential memorandum), describing efforts of the Nazi Sicherheitsdienst (or SD) to harness and weaponize Haitian Voodoo and zombie-creating technologies for military purposes. For the first time, here is the thrilling, humorous, and satisfyingly-gory story of an evil empire's foolhardy attempt to harness an ancient and unspeakable monster: the zombie!

While the Nazis initially dream of creating an army of bloodthirsty, automaton super-zombies to march across Europe, they soon learn that the walking dead are not as obedient and malleable as they've been led to believe. In contrast, these Nazi agents quickly find that the walking dead of the Haitian backwoods are closer to brain-eating, flesh-rending dynamos that don't respect a nicely pressed SS uniform, and instead just go for the jugular. Faced with Voodoo spells, dangerous flora and fauna, and their own naive assumptions about the dark forces with which they're tangling, these Nazi SD agents learn the hard way that nobody bosses around a zombie.

Kenemore—with nearly 100,000 copies of zombie classics in print—does it again.

Prince of Thorns (01) HC \$49.95 www.infinitas.com.au/Product.php?bar=9780441020324

Prince of Thorns is the first volume in a powerful new epic fantasy trilogy, original, absorbing and challenging.

Before the thorns taught me their sharp lessons and bled weakness from me I had but one brother, and I loved him well. But those days are gone and what is left of them lies in my mother's tomb.

Now I have many brothers, quick with knife and sword, and as evil as you please. We ride this broken empire and loot its corpse. They say these are violent times, the end of days when the dead roam and monsters haunt the night.

All that's true enough, but there's something worse out there, in the dark. Much worse. From being a privileged royal child, raised by a loving mother, Jorg Ancrath has become the Prince of Thorns, a charming, immoral boy leading a grim band of outlaws in a series of raids and atrocities.

The world is in chaos: violence is rife, nightmares everywhere. Jorg has the ability to master the living and the dead, but there is still one thing that puts a chill in him. Returning to his father's castle Jorg must confront horrors from his childhood and carve himself a future with all hands turned against him.

Mark Lawrence's debut novel tells a tale of blood and treachery, magic and brotherhood and paints a compelling and brutal, and sometimes beautiful, picture of an exceptional boy on his journey toward manhood and the throne.

The Chaos Balance (Recluse 07) PB \$19.95 www.infinitas.com.au/Product.php?bar=9780812571301

The saga of Recluse by L.E. Modesitt, Jr., has become one of the standard works of fantasy in the 1990s. VOYA says, "Modesitt's logical structure of the interrelationship of order and chaos, magic and technology, is one of the most thorough in modern fantasy. The personal growth of his characters and the depiction of their world, is well-written and credible - and involves the reader... The serious fantasy reader will revel in Modesitt's work." Launched with The Magic of Recluse, the novels of Recluse have gone on to sell over a million copies in paperback.

The previous Recluse novels, Fall of Angels, introduced the engineer/smith Nylan, the only man among the leadership of the company of "angels" marooned on a high plateau in the west of Candar, and perhaps the one person most responsible for their survival. But the angels are a matriarchal band, and so Nylan must leave his companions and seek a life elsewhere. He travels down from the plateau into the world of warring kingdoms and strange magics with his companion, Ayrlyn, the healer, and his infant son. They are in search of a place to lead a peaceful life, but they look different from the locals, and their talents are most valued in battle - and so the war between chaos and order begins again.

The Chaos Balance is the seventh book of the saga of Recluse.

David Moody**Autumn: Purification (Autumn 03)** TP \$29.95 www.infinitas.com.au/Product.php?bar=9780312569990

A bastard hybrid of War of the Worlds and Night of the Living Dead, the Autumn series chronicles the struggle survivors are forced to contend with in a world torn apart by a deadly disease. 99% of the population of the planet has been killed in less than 24 hours. Animated by “phase two” of some unknown contagion, the dead begin to rise. At first slow, blind, dumb and lumbering, the bodies soon regain their most basic senses and abilities—sight, hearing, locomotion—as well as the instinct toward aggression and violence. Held back only by the restraints of their rapidly decomposing flesh, the dead seem to have only one single goal—to lumber forth and destroy the sole remaining attraction in the silent, lifeless world: those who have survived the plague, who now find themselves outnumbered 1,000,000 to 1...

In Autumn: Purification, the heroes from the original Autumn novel and Autumn: The City work together to survive in this horrifying new world.

Without ever using the ‘Z’ word, the Autumn series offers a new perspective on the traditional zombie story. There’s no flesh eating, no fast-moving corpses, no gore for gore’s sake. Combining the atmosphere and tone of a George Romero film with the attitude and awareness of 28 Days Later, this horrifying and suspenseful novel is filled with relentless cold, dark fear.

Robert A. Heinlein (1907-1988) is generally considered the greatest American SF writer of the twentieth century. A famous and bestselling author in later life, he started as a navy man and graduate of Annapolis who was forced to retire because of tuberculosis. A socialist politician in the 1930s, he became one of the sources of Libertarian politics in the United States in his later years.

His most famous works include the Future History series (stories and novels collected in *The Past Through Tomorrow* and continued in later novels), *Starship Troopers*, *Stranger in a Strange Land*, and *The Moon is a Harsh Mistress*. He was a friend of admirals and of bestselling writers and artists, and was on the advisory committee that helped Ronald Reagan create the Star Wars Strategic Defense Initiative. Given his desire for privacy in the later decades of his life, he was both stranger and more interesting than one could ever have known.

This is the first of two volumes of a major American biography. *Robert A. Heinlein: Volume 1 (1907-1948): Learning Curve* is about Robert A. Heinlein's life up to the end of the 1940s and the midlife crisis that changed him forever.

Enter Captain Grist. He's heard about a crashed aircraft laden with the treasures of a lost civilisation and he needs Frey's help to get it. There's only one problem. The craft is lying in the trackless heart of a remote island, populated by giant beasts and subhuman monsters.

Dangerous, yes. Suicidal, perhaps. Still, Frey's never let commonsense get in the way of a fortune before. But there's something other than treasure on board that aircraft. Something that a lot of important people would kill for. And it's going to take all of Frey's considerable skill at lying, cheating and stealing if he wants to get his hands on it...

Fingerprints on a Glass Map TP \$19.95 www.infinitas.com.au/Product.php?bar=5800049859561

A collection of science fiction short stories from Australian based author David Clancy, featuring acclaimed works of imagination that challenge and compel.

"Fingerprints on a Glass Map" is a collection of short speculative fiction. The lives of each story are as linked as with the reincarnation of the phoenix. Born from the ashes of the previous tale, a unique life develops, stretching its wings of prose and ideas until it has fulfilled its purpose. Each leaves its own signature; just as unique as a fingerprint.

This collection contains thirteen works of fiction. Their content and appeal vary drastically. Included are treatises that;

* Prove that simple human endeavours can triumph over technology.

*Explores the tenacity of life and how the drive to survive overshadows sentiment or sensibility

*Shows a world where addiction is reinvented and redesigned.

*Demonstrates the ease of alien invasion without force and its infiltration into the fabric of mankind.

*Portrays the realisation of what is truly important to us, surfaces during a disaster.

*Investigates our reactions to the manipulations of a covert society upon our very physicality.

*Discussing how art is a conceptual idea, experienced by us but dictated by people who believe that they know the answer.

*Have you ever truly wished to be something that you weren't? Can that wish be fulfilled?

*Explores the covert world of espionage through digitalisation and company espionage.

*Delivers the ultimate form of revenge where, upon gaining everything, the protagonist loses everything.

*Surprise arrives in small packages. Often we gain unexpected insights that alter our entire mindset.

*Resurrection is the joy of rebirth but people are so blasé that they die to re-live.

From the above swirls, patterns and smudges of the short prompts above, can you discern which fingerprint belongs to which story?

In the heart of the new millennium, worlds beyond our imagination have opened up, blurring the line between life and art. Embracing the challenges and possibilities of cyberspace, genetics, the universe, and beyond, the world of science fiction has become a porthole into the realities of tomorrow. In The Year's Best Science Fiction Twenty-eighth Annual Collection our very best SF authors explore ideas of a new world with such compelling stories as:

"Chicken Little": The Locus Award-winning author Cory Doctorow shows us a future where the rich keep getting richer, and intend to stay that way—no matter what.

"The Starship Mechanic": Jay Lake and Ken Scholes join forces for a wry story that shows us that a workman is only as good as his tools—and that some of those tools are specialized for some very weird tasks indeed.

"The Night Train": The prolific writer Lavie Tidhar brings us on a vivid, violent, and bizarre journey on The Night Train, where few of the passengers are what they appear to be, and death can strike from nowhere at any second along the way...

The thirty-three stories in this collection imaginatively take us far across the universe, into the very core of our beings, to the realm of the gods, and the moment just after now. Included here are the works of masters of the form and of bright new talents, including:

Nina Allan	Jim Hawkins	Robert Reed
Eleanor Arnason	Alexander Jablovok	Alastair Reynolds
Kage Baker	Ted Kosmatka	Ken Scholes
Stephen Baxter	Jay Lake	Allen M. Steele

Peter Pan: Peter and Wendy in Kensington Gardens (Peter Pan) BPB \$9.95 www.infinitas.com.au/Product.php?bar=9780142437933

Peter Pan, the 'boy who would not grow up,' originally appeared as a baby living a magical life among birds and fairies in J.M. Barrie's sequence of stories, *Peter Pan in Kensington Gardens*. His later role as flying boy hero was brought to the stage by Barrie in the beloved play *Peter Pan*, which opened in 1904 and became the novel *Peter and Wendy* in 1911. In a narrative filled with vivid characters, epic battles, pirates, fairies, and fantastic imagination, Peter Pan's adventures capture the spirit of childhood—and of rebellion against the role of adulthood in conventional society.

This edition includes the novel and the stories, as well as an introduction by eminent scholar Jack Zipes. Looking at the man behind Peter Pan and sifting through the psychological interpretations that have engaged many a critic, Zipes explores the larger cultural and literary contexts in which we should appreciate Barrie's enduring creation and shows why Peter Pan is a work not for children but for adults seeking to reconnect with their own imagination.

Now Will and his best friend and neighbour, Gretchen, are starting a new summer. Gretchen seems troubled-her sleepwalking habit is getting worse, and she keeps waking up closer and closer to the water. Will is drawn to Asia, the exotic new girl in town. Nobody knows where she's from-all Will knows is that her beauty and her mesmerizing voice have a powerful effect on people.

Then there is another mysterious drowning, and Will and Gretchen begin to wonder: Is Asia just another beautiful, wealthy summer resident? Or is she something entirely more sinister . . . and inhuman?

Fantasy Film: A Critical Introduction TP \$39.99 www.infinitas.com.au/Product.php?bar=9781847883087

James Walters

Fantasy Film proposes an innovative approach to the study of this most popular cinematic genre. Engaging with the diversity of tones, forms and styles that fantasy can take in the cinema, the book examines the value and significance of fantasy across a wide range of key films. The aim is to extend critical understanding beyond the narrowly confined boundaries of what is seen as "fantasy."

Fantasy Film uses key concepts in film studies - such as authorship, representation, history, genre, coherence and point of view - to interrogate the fantasy genre and establish its parameters. A wide range of films are held up to close scrutiny to illustrate the discussion. Moving from Fritz Lang's dark thrillers to Vincente Minnelli's vibrant musicals, from George Melies' 1904 Voyage a travers l'impossible to Peter Jackson's The Lord of the Rings trilogy, the creative dexterity and excitement of film fantasy is evoked and explored. The book will be invaluable to students or fans of the fantasy genre.

When the Locust Horde burst from the ground fifteen years ago to slaughter the human population of Sera, mankind began a desperate war against extinction. Now after a decade and a half of bloody fighting, and with billions dead, the survivors--the Gears of the Coalition of Ordered Governments, along with a small band of civilians--have been forced to destroy their own cities and sacrifice their entire civilization to halt the Locust advance.

The last-ditch measures have succeeded, but at an enormous cost: the survivors have been reduced to a handful of refugees.

Escaping to a haven on the remote island of Vectes, they begin the heartbreaking task of rebuilding their devastated world. For a while, there's hope . . . making peace with old enemies, and once again planning for the future.

But the short respite is shattered when Vectes comes under siege from an even deadlier force than the Locust--the Lambent, a hideous and constantly mutating life-form that destroys everything in its path. As the Lambent's relentless assault spreads from the mainland to the island, the refugees finally understand what drove the Locust from their underground warrens and sparked the global war.

While Marcus Fenix and the Gears struggle to hold back the invasion, the Coalition faces a stark choice--fight this new enemy to the last human, or flee to the wastelands to take their chances and live like the human pariahs known as the Stranded . . . even as Coalition chairman Richard Prescott still guards one last, terrible secret about the Locust, the Lambent, and the future of mankind. . . .

When Azeroth was young, the noble titans appointed the five great dragonflights to safeguard the budding world. Each of the flights' leaders was imbued with a portion of the titans' vast cosmic powers. Together, these majestic Dragon Aspects committed themselves to thwarting any force that threatened the safety of the WORLD OF WARCRAFT.

Over ten thousand years ago, a betrayal by the maddened black Dragon Aspect, Deathwing, shattered the strength and unity of the dragonflights. His most recent assault on Azeroth—the Cataclysm—has left the world in turmoil. At the Maelstrom, the center of Azeroth's instability, former Horde warchief Thrall and other accomplished shaman struggle to keep the world from tearing apart in the wake of Deathwing's attack. Yet a battle also rages within Thrall regarding his new life in the shamanic Earthen Ring, hampering his normally unparalleled abilities.

Unable to focus on his duties, Thrall undertakes a seemingly menial task from an unexpected source: the mysterious green Dragon Aspect, Ysera. This humble endeavor soon becomes a journey spanning the lands of Azeroth and the timeways of history itself, bringing Thrall into contact with ancient dragonflights. Divided by conflict and mistrust, these dragons have become easy prey to a horrific new weapon unleashed by Deathwing's servants . . . a living nightmare engineered to exterminate Azeroth's winged guardians.

Of even greater concern is a bleak and terrifying possible future glimpsed by Ysera: the Hour of Twilight. Before this apocalyptic vision comes to pass, Thrall must purge his own doubts in order to discover his purpose in the world and aid Azeroth's dragonflights as they face the Twilight of the Aspects.

Gerry Gallen is searching for peace after years serving as a captain in the US Marines special forces.

But when Gallen agrees to lead a team of former soldiers looking after the personal security of an eccentric oil billionaire, he finds himself catapulted onto a rollercoaster of violence and double-crossing where private intelligence operators and clandestine hit teams are commonplace.

Powerful US and Russian interests are vying for the Arctic's valuable oil fields and it seems they'll stop at nothing to secure control of them, even if it means global catastrophe.

Gallen and his men are faced with a choice between personal safety and saving the world. They can either walk away or go to the Arctic Floor.

The Mayan Resurrection TP \$32.99 www.infinitas.com.au/Product.php?bar=9780857387677

After sacrificing himself to prevent mankind's extinction, Michael Gabriel is imprisoned in a torturous, purgatory-like dimension in the Mayan netherworld. The Mayan prophecy states that the Hero Twins – his sons Jacob and Immanuel, born to his wife Dominique the year after his entrapment – will travel to the Mayan realm in their twentieth year to free and resurrect him. Jacob, blessed with staggering intelligence and almost superhuman attributes, lives to embrace this destiny. Immanuel, on the other hand, fights the path chosen for him, opting to live a normal life.

Yet this struggle is not all that threatens their destiny: born the same day as the twins is a purely malevolent force, The Abomination – the evil yin to their yang – that will not stop until they succumb to its temptation. The war between good and evil wages on, as Michael Gabriel's fate, and that of planet Earth, hangs by an increasingly thin thread.

Traversing worlds, millennia and space-time continuums, the second of the Mayan trilogy captures the imagination like few books can, making it as much of a rip-roaring page-turner as its predecessor and preparing the series for an explosive climax.

Dirk Pitt returns in the extraordinary new novel from the number-one bestselling author Clive Cussler.

And now he brings us his greatest adventure of all.

In A.D. 327, a Roman galley with an extraordinary cargo barely escapes a pirate attack. In 1916, a British warship mysteriously explodes in the middle of the North Sea. In the present day, a cluster of important mosques in Turkey and Egypt are wracked by explosions.

What ties them all together?

NUMA director Dirk Pitt and his team are about to find out, as Roman artifacts discovered in Turkey and Israel unnervingly connect to the rise of a fundamentalist movement determined to restore the glory of the Ottoman Empire. From Washington to London to the treacherous shores of the Near East, dangerous men and desperate acts fill their path, and at the end of it, the most dangerous thing of all: the rumoured existence of a mysterious 'manifest,' lost long ago, which if discovered again... just might change the history of the world as we know it.

But the dead man left a clue: a single word, spelled out in his four-year-old's letter magnets, is fixed to the fridge door. Detective Ari Greene arrives minutes before the international press, who are obsessed by Wyler's torrid affair with a young Hollywood starlet. The city's going through a crime wave and the heat is on Greene. Hours after the funeral, Wyler's ex-wife Tamar is charged with the murder. For veteran defence lawyer Ted DiPaulo, widowed and raising two teenagers, his biggest obstacle is his own client. Tamar Wyler is a strange, enigmatic beauty who comes from an old mining town in Northern Ontario. And DiPaulo's up against a determined prosecutor: Jennifer Raglan has recently stepped down as head crown and she's back with her husband - after an affair with Detective Greene... What should be a straight-forward guilty plea turns into a complex murder trial, and leaves a trail of unanswered questions in its aftermath.

Having grown up helping his mom at the family mortuary, dead bodies are no big deal to John. He likes them, actually. They don't ask for the empathy he's unable to offer. Perhaps that's what gives him the clarity to recognize that something is frighteningly different about the freshest body on the slab.

For the first time, John must confront a danger outside his own mind, a threat he cannot control, a menace to everything and everyone he would love, if only he could.

World War II: A Complete Photographic History HC \$39.99 www.infinitas.com.au/Product.php?bar=9781579124083

"World War II: A Complete Photographic History presents a simultaneous documentary view of every theatre of the war, from the steppes of Russia to the jungles of Malaysia and the Solomons; from the freezing cold of the northernmost fjords to the scorching sands of the Libyan desert; from the bunkers of the West Wall to the boundless oceans. With more than 2,500 photographs and maps and an unprecedented collection of primary source texts, this monumental volume bears witness from September 1, 1939, to September 2, 1945. This massive chronicle is the cumulative diary, day by day, front by front, of the military and political events of those years. It is a work that makes clear what happened then, and much of what has happened since. *World War II: A Complete Photographic History* provides vivid and immediate evidence of the war as it was: the misery and glory of men involved in a tragedy that brought out the worst in them, yet which sometimes inspired them to remarkable acts of nobility, chivalry, and brotherhood."

The Men Who Came Out of The Ground PB \$24.99 www.infinitas.com.au/Product.php?bar=9780733628184

These Australians were the men of the 2/2nd Australian Independent Company - a special commando unit. Initially stranded without radio contact to Australia, the Japanese declared these bearded warriors outlaws and warned they would be executed immediately if captured. The Australians drawn mainly from the bush, were chosen for their ability to operate independently and survive in hostile territory. As film-maker Damien Parer said after visiting in Timor in late 1942, these men are writing an epic of guerrilla warfare. Expertly researched by Paul Cleary, who is fluent in Tetum, the main language of the indigenous group of East Timor, it also contains insightful black and white photos.

The Fort BPB \$19.99 www.infinitas.com.au/Product.php?bar=9780007331741

Summer 1779.

Seven hundred and fifty British soldiers and three small ships of the Royal Navy. Their orders: to build a fort above a harbour to create a base from which to control the New England seaboard.

Forty-one American ships and over nine hundred men. Their orders: to expel the British.

The battle that followed was a classic example of how the best-laid plans can be disrupted by personality and politics, and of how warfare can bring out both the best and worst in men. It is a timeless tale of men at war, written by a master storyteller.

Cameron Forbes

The Korean War TP \$34.99 www.infinitas.com.au/Product.php?bar=9781742610221

The Korean War has never really ended. Although a ceasefire agreement was reached in 1953 after three years of savage warfare, the conflict continues to simmer just below the surface, threatening at any moment to break into full-scale fighting. It makes the Korean peninsula one of the most dangerous flashpoints in the world today.

But the war itself has long been called the forgotten war. It was fought at the height of the Cold War, with the forces of the United Nations, led by the US, on the one hand against the forces of Communism on the other, led by Mao Tse Tung's China. Australia was a part of the US-led coalition, and our troops took part in some of the conflict's most savage fighting, but coming only five years after the end of World War Two, and before the full empowerment of the media that was to take place during the Vietnam War, what happened in Korea during those three long years has been largely overlooked by the public.

Cameron Forbes, acclaimed author of Hellfire, tells the story of the war and Australia's involvement in it in a riveting narrative. From the letters and diaries of those diggers who fought across Korea's unforgiving hills and mountains to the grand strategies formulated in Washington, Moscow and Beijing, The Korean War reveals the conflict on all its levels - human, military and geopolitical. In the tradition of Les Carlyon's Gallipoli and The Great War, Cameron Forbes has written a masterpiece that will serve as the definitive history of Australia and the Korean War.

Theo Gray

Mad Science PB \$22.99 www.infinitas.com.au/Product.php?bar=9781579128753

Bestselling author of The Elements: A Visual Exploration of Every Atom in the Universe and celebrated Popular Science columnist, Theodore Gray, demonstrates essential scientific principles through thrilling, daredevil experiments. In Mad Science, Theodore Gray launches a toy rocket using the energy released from an Oreo cookie, ignites a phosphorus sun by suspending half a gram of white phosphorus in a glob of pure oxygen, and creates a homemade hot tub by adding 500 pounds of quicklime to water. The book includes these and over 50 astonishing, fascinating, and ultimately educational experiments. Every experiment featured in this book is accompanied by stunning full-color photographs that provide readers with a front-row seat to rarely-seen chemical reactions and glorious subatomic activity, and step-by-step instructions for how to perform the experiments so many of them can be recreated by readers at home, including making ice cubes that sink and lighting pure steel on fire. Other experiments would be crazy to attempt without the help and supervision of an experienced chemist, and such experiments are clearly marked throughout. In the spirit of 'MythBusters', Theo Gray's Mad Science is the perfect book for students who are studying chemistry and anyone fascinated by chemical reactions and pyrotechnics of all kinds.

Mark Johnston Australian Author

Whispering Death TP \$35 www.infinitas.com.au/Product.php?bar=9781741759013

In *Whispering Death*, Mark Johnston, one of Australia's leading experts on World War II, explains vividly how more than 130,000 Australian airmen fought Japan from the Pacific War's first hours in 1941 to its last in 1945. They clashed over a vast area, from India to Noumea, Bass Strait to the Philippines. Merely flying over that region's boundless oceans and wild weather was dangerous enough for Australia's fliers, but their formidable enemies made it much more perilous. In their Zero fighters and Betty bombers they were initially too numerous, experienced and well-armed for the few Australians who opposed them in Malaya, the Northern Territory and New Guinea.

February 1942 brought the RAAF its darkest hour: the bombing of Darwin, which no Australian fighter planes contested. But in the months following, Australian aircrew won or contributed to great aerial victories in the air over Port Moresby, Milne Bay, the Papuan beachheads and the Bismarck Sea. The American air force grew to dominate both the Japanese and their Australian ally, but until war's end Australian aircrew continued to battle in Pacific skies, and to die in flaming aircraft or at the hands of vindictive captors. Some pilots, such as aces Clive 'Killer' Caldwell and Keith 'Bluey' Truscott became household names. Certain Australian aircraft caught the public imagination too: the Kittyhawk, the Spitfire and the plane dubbed 'Whispering Death' for its eviscerating firepower and deceptively quiet engines - the Beaufighter.

Australia's flight to victory was never smooth, thanks to internal squabbling at the RAAF's highest levels and a difficult relationship with the allies on whom Australia depended for aircraft and leadership. So controversial were the RAAF's final operations that some of its most prominent pilots mutinied. Based on thousands of official and private documents, *Whispering Death* makes for compelling reading.

Part Samoan and German/English, born in Fiji and raised in Germany and Australia, he was managing a rubber plantation and gold mine in Papua New Guinea at the outbreak of WWII. He surveyed and established the Track, and spent more time on it than anyone else throughout the campaign managing and organising the delivery of supplies and men along it. A unique story of a very special part of our history, told by his daughter-in-law with unique access to the central character, and access to all his records and photos. This is the untold story of a true Australian war hero.

Hard Jacka BPB \$24.99 www.infinitas.com.au/Product.php?bar=9781921793882

Michael Lawriwsky's insightful *Hard Jacka* breathes life into the real man behind the legend of Albert Jacka, VC — 'Jacka' to his superiors, 'Bert' to his mates, 'our Albert' to his proud mother.

Hard Jacka is a superb account of the man whose acts of selfless heroism at Gallipoli would win him a VC, whose insubordination antagonised his seniors and whose bravery in the battlefields of France would win him the unwavering loyalty of his mates.

Hard Jacka is a rich and fascinating story about Albert Jacka and the Great War, its heroes and anti-heroes, their sacrifice, determination and larrikin humour. It's a compelling tale about the deep bonds that life in the trenches developed between men — the quintessential Aussie mateship.

Return of the Gallipoli Legend: Jacka VC BPB \$24.99 www.infinitas.com.au/Product.php?bar=9781921795039

A hero returns home to a country that is riding high on victory and bolstered with pride. But anyone who has experienced war knows it can never be left behind.

Return of the Gallipoli Legend continues the story, told in *Hard Jacka*, of Albert Jacka, VC — soldier, legend and friend. In this meticulously researched account of a hero and his comrades-in-arms, Michael Lawriwsky explores the human cost of war. Coming home is bittersweet and the memories and experiences of war are never forgotten — irrevocably changing the world view of the soldiers who returned to a nation on the brink of The Great Depression. It is through the eyes of Albert Jacka, VC that we catch a glimpse of how survival away from the trenches becomes an emotional battle on the homefront.

Michael Lawriwsky vividly describes the baptism of fire Australia's young soldiers faced when they were called upon to sacrifice all for King and Country on the battlegrounds of Gallipoli, the Somme, Bullecourt and Polygon Wood. The price paid by the soldiers and their families is one that will echo through generations.

Albert Jacka, VC was a hero whose legacy lives on.

The Spirit of the Digger TP \$35 www.infinitas.com.au/Product.php?bar=9780732292751

Told through the words and actions of the Diggers themselves, *THE SPIRIT OF THE DIGGER* explores the essence of the Australian soldier and how he differs from other soldiers. In many ways, the Digger is a study in contradictions: he doesn't crave war yet he will fight with unequalled ferocity; he hates spit and polish but will hold his discipline under the most trying conditions; he is tough yet compassionate; he hates his enemy until he surrenders, then he is generous in victory; he despises histrionics but will cry unashamedly at the loss of a mate. This updated edition of Patrick Lindsay's bestseller includes new chapters devoted to the Digger in Iraq, the first Australian VC awarded to Mark Donaldson in Afghanistan, as well as never before seen photographs. Courage, mateship, endurance, selflessness, devotion, independence, audacity, and humour describe the Digger. Throw in resilience, self-reliance and compassion and the list of the Diggers qualities is still not complete. They are not all heroes but they are remarkable.

Air Force TP \$35 www.infinitas.com.au/Product.php?bar=9780732290252

The inside story of the modern Royal Australian Air Force and its people in an action-packed period of air power from East Timor and the Bali bombings to the wars in Iraq and Afghanistan. Award-winning journalist and best-selling author Ian McPhedran takes us on another exclusive journey, this time to the heart of the RAAF through personal stories of fighter pilots bombing raids over Iraq, hi-tech spy planes over Afghanistan, the operational nerve centre of the Middle East war and the men and women who deliver humanitarian aid and alleviate suffering around the world. This is the compelling narrative in the RAAF's 90th year of its aircraft, traditions and personalities, from the corridors of power in Canberra to far-flung bases around Australia and the world, in more than a decade of rapid change as technology propels it into the next generation of air power and the futuristic era of stealth. It is a must-read not only for aviation and military buffs or those who are curious about what the RAAF has been doing since 1999, but for anyone who has glanced skywards at the sound of an air force plane passing overhead. We know a lot about what the army has been up to since East Timor in 1999, but what about the Air Force? Air power was a key deterrent during the 1999 East Timor crisis, when F-111s were sent to Tindal in the Northern Territory and used for reconnaissance flights over the island.

Robert Sackville-West

Inheritance: The Story of Knole and the Sackvilles BPB \$23.99 www.infinitas.com.au/Product.php?bar=9781408809686

Since its purchase in 1604 by Thomas Sackville, 1st Earl of Dorset, the house at Knole, Kent, has been inhabited by thirteen generations of a single aristocratic family, the Sackvilles. Here, drawing on a wealth of unpublished letters, archives and images, the current incumbent of the seat, Robert Sackville-West, paints a vivid and intimate portrait of the vast, labyrinthine house and the close relationships his colourful ancestors formed with it. Inheritance is the story of a house and its inhabitants, a family described by Vita Sackville-West as 'a race too prodigal, too amorous, too weak, too indolent and too melancholy; a rotten lot, and nearly all stark staring mad'. Where some revelled in the hedonism of aristocratic life, others rebelled against a house which, in time, would disinherit them, shutting its doors to them forever. It's a drama in which the house itself is a principal character, it's fortunes often mirroring those of the family. Every detail holds a story: the portraits, and all the junk which the subjects of those portraits left behind, point to pivotal moments in history; all the rooms, and the objects that fill them, are freighted with an emotional significance that has been handed down from generation to generation.

Now owned by the National Trust, Knole is today one of the largest houses in England, visited by thousands annually and housing one of the country's finest collections of second-hand Royal furniture. It's a pleasure to follow Robert Sackville-West, as he unravels the private life of a public place on a fascinating, masterful, four-hundred-year tour through the memories and memorabilia, political, financial and domestic, of his extraordinary family.

David Stevenson

With Our Backs to the Wall: Victory and Defeat in 1918 HC \$59.95 www.infinitas.com.au/Product.php?bar=9780713998405

Winston Churchill told the House of Commons in 1940, 'During the first four years of the last war the Allies experienced nothing but disaster and disappointment. That was our constant fear: one blow after another, terrible losses, frightful dangers... we repeatedly asked ourselves the question: How are we going to win?'

At the end of 1917 Britain and France faced a strategic nightmare. Their great offensives against Germany had been calamitous, leaving hundreds of thousands of young men dead and wounded for negligible territorial gains. Despite America's entry into the war the US army remained tiny, the Italian army had been routed, and Russia had dropped out of the conflict. The Central Powers now dominated Central and Eastern Europe, and Germany could move more than forty divisions to the Western Front. Yet only one year later, on 11 November 1918, the fighting ended in a decisive Allied victory.

In his new book David Stevenson retells the story of the final year of the First World War. Drawing on original research in the archives of seven countries, he goes to the roots of this dramatic reversal of fortune, analysing the reasons for Allied success and the collapse of Germany and its partners. Everything from food supply to finance, strategy to technology, logistics to morale, is explored in an assessment that lays bare the nerve-racking decisions taken on both sides and the sheer uncertainty faced by their leaders. Ironically Stevenson traces Germany's 1918 disaster to 'Operation Michael', the great spring offensive that tested the British army to the uttermost and led to Field Marshal Haig's famous 'With our backs to the wall' order to his troops to fight to the last man.

Global in its canvas and examining every fighting theatre, this is a compelling study of one of the most significant turning points in modern history.
