Magic the Gathering events at the shop are proving popular. Our latest Thursday night draft is reported by MTG player Jacob on his blog at: <http://foxmurdoch.blogspot.com.au/2012/07/blokey-stuffs-event.html>

The shop will be closed on Friday 10th and Saturday 11th August. This is due to family commitments and means roleplaying games are cancelled for Saturday morning. Sorry for the inconvenience.

Readers' Reviews

Feel free to submit a book review for us to publish. If you have read a book and have an opinion on it, share it with the other readers in our community. In the shop we have several books for which we are seeking reviewers, and would exchange for a review.

Flash and Bones by **Kathy Reichs**, reviewed by Len Newland

<http://www.infinitas.com.au/Product.php?bar=9780434015351>

Author Reichs is a practicing forensic anthropologist, meaning she specialises in old corpses with or without flesh left on the bones, and her character Doctor Temperance (“Tempe”) Brennan has the same occupation. So when Brennan is presented with four missing persons and two old corpses that may or may not correspond to those MPs, and then discovers an FBI coverup surrounding these cases, naturally her curiosity is piqued. Fortunately, she has police friends willing to help her work out what’s going on. One MP and corpse are soon accounted for by a murderer’s confession, but a fresh victim with pathological similarity to the other ten-year-old corpse shows that Brennan’s investigation is getting too close to the truth for someone’s comfort.

This novel is almost Christie-like in being investigation with little violence (questions are asked as they arise) and no carping between officials (other than understandable annoyance over equally understandable FBI reticence). The book is well written with good humorous quips, few English quirks and one logic quirk that isn’t significant. I did become concerned when I saw the bad guy not shooting Brennan outright, and thought it unfair contrivance, but there turned out to be sound logical reason. I have minor reservations in an altogether too common tendency among crime fiction authors to sidetrack into irrelevancies such as Brennan’s relationship with her ex-husband, and in the provision of event dates but not the present date (only hinted to be 2011, the publication year). The opening lines state “Summer saved my life” without indicating that Summer is a character’s name. Despite these concerns, I’m comfortable with suggesting this novel is worth five stars out of five.

The book is one of a series featuring Temperance Brennan, and mentions her illegitimate grandniece Tory Brennan, featured in a related young adult series. According to the cover of my review copy, Reichs is a crime fiction “brand” being promoted as such; a “hit” TV series (“Bones”), for example, is threatened. The publisher seems oddly surprised that Reichs’ sales are growing. Also oddly, the copyright for this book is in the name of Temperance Brennan, while Kathy Reichs asserts authorship. Well, never mind commercial jabber. The novel is an excellent read on its own, and arguably deserves growing sales.

Pastwatch: The Redemption of Christopher Columbus by **Orson Scott Card**, reviewed by Garry P Dalrymple

<http://www.infinitas.com.au/Product.php?bar=9780812508642>

The development of machinery in the near future capable of viewing the past (how? Don’t ask) leads to the creation of the Pastwatch, an instrumentality devoted to studying the past, recording a true view of history, in all its horrific detail etc. An African centred researcher gets greatly interested in Slavery, which apparently started in the ‘Atlantis’ of the Red sea, whose discovery validates the biblical Noah story (instead of the rather more credible Black Sea version) and so on. A close study of the life and times of Christopher Columbus reveals that someone else is watching and used a Ghod impersonation to steer the evangelical Columbus from an intention to mount a crusade to re-take Constantinople (then Jerusalem) towards the Americas, for ‘Ghod and Ghod’. Likely story? So a plot is hatched, to avoid the catastrophe for the Amerindians, why not do something to neutralise Columbus and at the same time socially and technologically enhance the Central Americans to be able to stand up to the ‘Guns Germs and Steel’ of Europe, AND make them Christian (but multi-faith tolerant) at the same time. All well and good, but any intervention in the past would obliterate the existing timeline. Out of the shadows steps a representative of the ‘secret government’ the watchers of the watchers and what they know is that the End of the World is Nigh – Ecological collapse – too many people on an Earth short of resources. The news from their version of Isaac Asimov’s Foundation is that in the rest of the world, things are not going so well, eco recovery is illusory and bad times are coming with famine and death for billions due in only a few years, justifying a decision for chronological suicide of the timeline. Three are despatched back into time, to tame

and redeem Columbus, and the two survivors create a Christian, technological, slave free, human sacrifice free and Spanish speaking United States of the Caribbean which is able to deal with Spain and Portugal as an equal. All of this is accomplished in the last quarter of the book and the last thirty years of Columbus' life. Does this sound a bit much to you?

Comments and Conclusions – May the Prophet Joseph Smith bless OSC's and his magic Mormon undergarments, all that guff in The Book of Mormon about the Lammenite cities is finally put to some use. Allow me to explain, the book of Mormon states that the tribe of Israel arrived in America, interacted with the inhabitants, got wiped out, only no one could see any archaeological evidence of this (apart from the 'revised Egyptian' inscribed gold plates of Moroni revealed to Joseph Smith) within the expanding borders of the United States, from 1845 onwards, giving rise to a drive by Mormon educated Archaeologists to search for what they 'knew' they must find in Central America. This book concludes with a bibliography, so perhaps the premise of a central America with indigenous Iron / steel and Atlantic crossing boats might be a 'might have been'. I found it an interesting but not entirely convincing story, as there were a few too many 'what if's stretched beyond rational belief. These were I believe based I fear on a few presumptions that disclose a bit more about the mind of the writer than I'm comfortable with. Worth reading as a different and 'inspired' take on the implications of remote viewing and time travel.

Wards of Faerie (Dark Legacy of Shannara 01) Hardcover \$39.95 www.infinitas.com.au/Product.php?bar=9780345523471

Seven years after the conclusion of the High Druid of Shannara trilogy, New York Times bestselling author Terry Brooks at last revisits one of the most popular eras in the legendary epic fantasy series that has spellbound readers for more than three decades.

When the world was young, and its name was Faerie, the power of magic ruled - and the Elfstones warded the race of Elves and their lands, keeping evil at bay. But when an Elven girl fell hopelessly in love with a Darkling boy of the Void, he carried away more than her heart.

Thousands of years later, tumultuous times are upon the world now known as the Four Lands. Users of magic are in conflict with proponents of science. Elves have distanced their society from the other races. The dwindling Druid order and its teachings are threatened with extinction. A sinister politician has used treachery and murder to rise as prime minister of the mighty Federation. Meanwhile, poring through a long-forgotten diary, the young Druid Aphenglow Elesedil has stumbled upon the secret account of an Elven girl's heartbreak and the shocking truth about the vanished Elfstones. But never has a little knowledge been so very dangerous - as Aphenglow quickly learns when she's set upon by assassins.

Yet there can be no turning back from the road to which fate has steered her. For whoever captures the Elfstones and their untold powers will surely hold the advantage in the devastating clash to come. But Aphenglow and her allies - Druids, Elves, and humans alike - remember the monstrous history of the Demon War, and they know that the Four Lands will never survive another reign of darkness. But whether they themselves can survive the attempt to stem that tide is another question entirely.

Meet Harry Dresden, Chicago's first (and only) Wizard PI. Turns out the 'everyday' world is full of strange and magical things - and most of them don't play well with humans. That's where Harry comes in. But he's forgotten his own golden rule: magic - it can get a guy killed. Which didn't help when he clashed with unknown assailants with his murder in mind. And though Harry's continued existence is now in some doubt, this doesn't mean he can rest in peace.

Trapped in a realm that's not quite here, yet not quite anywhere else, Harry learns that three of his loved ones are in danger. Only by discovering his assailant's identity can he save his friends, bring criminal elements to justice, and move on himself. It would just be easier if he knew who was at risk. And had a (working) crystal ball. And access to magic. Instead, he is unable to interact with the physical world - invisible to all but a select magical few. He's also not the only silent presence roaming Chicago's alleys. Hell, he put some there himself. Now, they're looking for payback.

The Night Eternal (*Strain 03*) A+ Paperback \$19.95 www.infinitas.com.au/Product.php?bar=9780061558276

A ragtag network of humans--Eph, a brilliant scientist; Vasiliy Fet, an exterminator; and Gus, a former gangbanger--are determined to disrupt and destroy the vampire new world order. It's been two years since the vampiric virus was unleashed in *The Strain*, and the entire world now lies on the brink of annihilation. There is only night as nuclear winter blankets the land, the sun filtering through the poisoned atmosphere for two hours each day--the perfect environment for the propagation of vampires.

There has been a mass extermination of humans, the best and the brightest, the wealthy and the influential, orchestrated by the Master--an ancient vampire possessed of unparalleled powers--who selects survivors based on compliance. Those humans who remain are entirely subjugated, interred in camps, and separated by status: those who breed more humans, and those who are bred for the sustenance of the Master's vast army.

The future of humankind lies in the hands of a ragtag band of freedom fighters--Dr. Eph Goodweather, former head of the Centers for Disease Control's biological threats team; Dr. Nora Martinez, a fellow doctor with a talent for dispatching the undead; Vasiliy Fet, the colorful Russian exterminator; and Mr. Quinlan, the half-breed offspring of the Master who is bent on revenge. It's their job to rescue Eph's son, Zack, and overturn this devastating new world order. But good and evil are malleable terms now, and the Master is most skilled at preying on the weaknesses of humans.

Now, at this critical hour, there is evidence of a traitor in their midst. . . . And only one man holds the answer to the Master's demise, but is he one who can be trusted with the fate of the world? And who among them will pay the ultimate sacrifice--so that others may be saved?

The Uninvited Trade Paperback \$29.95 www.infinitas.com.au/Product.php?bar=9781408821152

A seven-year-old girl puts a nail-gun to her grandmother's neck and fires. An isolated incident, say the experts. The experts are wrong. Across the world, children are killing their families. Is violence contagious?

As chilling murders by children grip the country, anthropologist Hesketh Lock has his own mystery to solve: a bizarre scandal in the Taiwan timber industry. Hesketh has never been good at relationships: Asperger's Syndrome has seen to that. But he does have a talent for spotting behavioural patterns, and an outsider's fascination with group dynamics.

Nothing obvious connects Hesketh's Southeast Asian case with the atrocities back home. Or with the increasingly odd behaviour of his beloved step-son, Freddy. But when Hesketh's Taiwan contact dies shockingly and more acts of sabotage and child violence sweep the globe, he is forced to acknowledge possibilities that defy the rational principles on which he has staked his life, his career and, most devastatingly of all, his role as a father.

Countdown: H Hour (Countdown 03) A Paperback \$17.95 www.infinitas.com.au/Product.php?bar=9781451637939

Welcome to the Philippines outback. It's a true garden spot, if you happen to like drug running, bush-bound revolutionary movements, Balkanized tribal warfare, illegal weapons trading, and kidnapping for fun and profit.

It's hostage rescue time once again for Terry Welch's special operations company. But this is turning out to be one of those missions. No clue as to the hostage's whereabouts. An employer who is completely untrustworthy. An indigenous social structure coming apart at the seams. And it's topped off by Welch and his crew having to endure a rifle company of hated competitors supposedly sent along for reinforcement.

Part of the territory for Welch. But then an attack on both companies' home bases leaves families and friends under threat of death and any available support scurrying to defend. Worse, advance team members sent to reconnoiter have been taken hostage as well. No help, no backup, team members in the soup.

Welch knows there's only one solution: do whatever it takes. Use whatever means necessary to complete the mission. And if those means include force, guile, sneak attacks, and a small dose of heightened interrogation techniques for scumball terrorist enablers (okay, maybe a somewhat larger dose), then so be it. This is H Hour. And the fight is on.

Along with a small group of fellow survivors, she takes refuge in an abandoned skyscraper in what was once the financial centre. But spectres stalk the empty offices and endless corridors, and soon visions of a forgotten world emerge, a world of broken love and betrayal, and horrific, shocking mercies - a world more traumatic even than the desolate present. "Then" is a novel of singular invention and bravery.

With it, Julie Myerson has created an echo chamber of the heartbreaking and the terrifying, and an enduring apocalyptic vision.

***Fate of Worlds* (Return from the Ringworld)** Hardcover \$39.95 www.infinitas.com.au/Product.php?bar=9780765331007

For decades, the spacefaring species of Known Space have battled over the largest artifact - and grandest prize - in the galaxy: the all-but-limitless resources and technology of the Ringworld. But without warning the Ringworld has vanished, leaving behind three rival war fleets.

Something must justify the blood and treasure that have been spent. If the fallen civilization of the Ringworld can no longer be despoiled of its secrets, the Puppeteers will be forced to surrender theirs. Everyone knows that the Puppeteers are cowards.

But the crises converging upon the trillion Puppeteers of the Fleet of Worlds go far beyond even the onrushing armadas:

Adventurer Louis Wu and the exiled Puppeteer known only as Hindmost, marooned together for more than a decade, escaped from the Ringworld before it disappeared. And throughout those years, as he studied Ringworld technology, Hindmost has plotted to reclaim his power.

Ol'tro, the Gw'oth ensemble mind - and the Fleet of World's unsuspected puppet master for a century - is deviously brilliant. And, increasingly unbalanced.

Proteus, the artificial intelligence on which - in desperation - the Puppeteers rely to manage their defenses, is outgrowing its programming. And the supposed constraints on its initiative.

Sigmund Ausfaller, paranoid and disgraced hero of the lost human colony of New Terra, knows that something threatens his adopted home world. And that it must be stopped.

Achilles, the megalomaniac Puppeteer, twice banished - and twice rehabilitated - sees the Fleet of World's existential crisis as a new opportunity to reclaim supreme power. Whatever the risks.

One way or another, the fabled race of Puppeteers may have come to the end of their days in this final installment to Larry Niven and Edward M. Lerner's Fleet of Worlds series.

Barbara Everette has a problem. It seems Janea, Barbara's assistant and The Foundation for Love and Universal Faith's best operative, has been thrown into a coma by some very nasty magic she's stirred up. Barbara must track down the perpetrators and break the spell or Janea's soul will be forever lost on the astral plane. Oh, and if she can't break the spell, zombies will destroy all mankind.

Meanwhile, Janea, a high-dollar call girl, stripper and High Priestess of Freya when she isn't fighting demons, must contend with a spiritual journey of her own. It's a journey into Janea's acceptance of herself in all her dimensions (and what dimensions they are!). Where to locate one's true inner essence? At a science fiction convention, of course. But when rescuers pursue Janea into her vision of a geeky alternate reality, we find this is one science fiction convention where the Guest of Honor could turn out to be Death Himself.

Finally, the Christian soccer mom and the Norse priestess stripper face their greatest challenge ever when an ancient Old One rears Her ugly face, and the Mother of Darkness walks among us. Since this is one Mother who is quite immune to any conventional power, including nuclear weapons, it seems humanity's only hope is God. The question being: Is God willing to save humanity?

Fortunately for the rest of us, Barbara and Janea are determined to fight to the last ounce of faith to find out.

Harry Turtledove

Coup d'Etat (War that Came Early 04) Hardcover \$39.95 www.infinitas.com.au/Product.php?bar=9780345524652

In 1941, a treaty between England and Germany unravels - and so does a different World War II.

In Harry Turtledove's mesmerizing alternate history of World War II, the choices of men and fate have changed history. Now it is the winter of 1941. As the Germans, with England and France on their side, slam deep into Russia, Stalin's terrible machine fights for its life. But the agreements of world leaders do not touch the hearts of soldiers. The war between Germany and Russia is rocked by men with the courage to aim their guns in a new direction.

England is the first to be shaken. Following the suspicious death of Winston Churchill, with his staunch anti-Nazi views, a small cabal begins to imagine the unthinkable in a nation long famous for respecting the rule of law. With civil liberties hanging by a thread, a conspiracy forms against the powers that be. What will this daring plan mean for the European war as a whole?

Meanwhile, in America, a woman who has met Hitler face-to-face urges her countrymen to wake up to his evil. For the time being, the United States is fighting only Japan - and the war is not going as well as Washington would like. Can Roosevelt keep his grip on the country's imagination?

Coup d'Etat captures how war makes for the strangest of bedfellows. A freethinking Frenchman fights side by side with racist Nazis. A Czech finds himself on the dusty front lines of the Spanish Civil War, gunning for Germany's Nationalist allies. A German bomber pilot courts a half-Polish, half-Jewish beauty in Bialystock. And the Jews in Germany, though trapped under Hitler's fist, are as yet protected by his fear of looking bad before the world - and by an outspoken Catholic bishop.

With his spectacular command of character, coincidence, and military and political strategies, Harry Turtledove continues a passionate, unmatched saga of a World War II composed of different enemies, different allies - and hurtling toward a horrific moment. For a diabolical new weapon is about to be unleashed, not by the United States, but by Japan, in a tactic that will shock the world.

And they know if they lose it will be far worse than their own deaths and the destruction of all they know and love.

For five years, Charis has survived all the Church of God Awaiting and the corrupt men who control it have thrown at the island empire. The price has been high and paid in blood. Despite its chain of hard-fought naval victories, Charis is still on the defensive. It can hold its own at sea, but if it is to survive, it must defeat the Church upon its own ground. Yet how does it invade the mainland and take the war to a foe whose population outnumbers its own fifteen to one? How does it prevent that massive opponent from rebuilding its fleets and attacking yet again?

Charis has no answer to those questions, but needs to find one - quickly.

Joe Schreiber

In the time immediately following the destruction of the Death Star and the years between the Battle of Yavin and the foundation of the Rebel Base on Hoth, the Empire's grip on the galaxy has become an unyielding fist of retribution. Pressed into action by Emperor Palpatine, Imperial forces have stepped up efforts to hunt down and imprison Rebel sympathizers, shipping them off to newly formed detainment moons via huge prison barges. By necessity these barges are floating chambers of degradation and vice, notoriously unreliable spacecraft staffed by Imperial corrections officers whose cruelty rivals that of the inmates. The Imperial Prison Barge Virtue is hauling its load of prisoners, criminals and murderers, human and non-human, across the galaxy, when it breaks down in deep space.

Soon after, the ship's warden discovers a derelict Star Destroyer, seemingly abandoned, and sends a boarding party to scavenge parts to repair the Virtue. Half of them don't come back. The ones that do are infected with a virus so deadly that within hours, it has wiped out ninety-nine percent of the barge's population. But for the handful of survivors - two brothers, the Virtue's female chief medical officer, and a sadistic captain of the guards, along with a certain rogue smuggler and his Wookiee sidekick - the true horror is just begun. Because those inmates and guards who died of the virus don't stay dead...and when they come back, they're extremely hungry. Against their better judgment, the survivors take refuge aboard the massive creaking emptiness of the Destroyer, only to discover that its original population has not disappeared at all - and that they've been waiting for them.

Bob Cooper Australian Author

Outback Survival B Paperback \$24.99 www.infinitas.com.au/Product.php?bar=9780733628313

OUTBACK SURVIVAL is a timeless practical run down on everything you need to know to survive in the outback.

Bob Cooper's incredible bushcraft skills have been developed through more than 25 years of experience in the outback. He has picked up tools of survival from the experiences of living with traditional Aboriginal communities, instructing with Special Forces Units, lecturing with the Texas Parks and Wildlife Service on desert survival in the Mexican Desert, delivering wilderness lessons in the UK and learning the skills of the bushmen of the Kalahari Desert in Botswana.

Bob has put his own lessons to the test, dropping himself off in the 42C heat of the Australian desert with only a map and soap box sized survival kit, no food, water or sleeping gear, and a 10 day walk across 160km of rough terrain back to safety. He did this alone and showed that with the right knowledge of the land, you can survive.

The outback of Australia is one of the most unforgiving regions of the world, but Bob is committed to protecting and enhancing the experience people have when venturing out into the bush.

David Darcy Australian Author

Australian Mongrel Hardcover \$49.99 www.infinitas.com.au/Product.php?bar=9781742668444

Australian Mongrel is a photographic exploration of Australia's relationship with this beloved icon. Renowned photographer David Darcy explores the lives of a diverse range of dogs from the land down under, from working dogs to suburban canines, Aboriginal camp dogs to the ordinary Aussie mongrel. Accompanying the dogs is a cross section of people who share their lives with man's best friend, and the many stories and yarns that go with them. Featuring ordinary working folk, mums and dads, indigenous people and countless other characters, their narratives are often funny, sometimes heroic, frequently heartfelt and moving, but always worth telling. Australian Mongrel is also a showcase of the Australian landscape. Dogs play the lead role, but it is the combination of canine personality, the relationship between location, human and animal, that allows a true connection with these distinctive, nostalgic and honest portraits.

Man vs Life Paperback \$19.99 www.infinitas.com.au/Product.php?bar=9781743361412

Is it just me, or do you all feel a bit lost too? At 23 I was bulletproof. I was different. My life would be different; my relationships (if I ever got round to having a lasting one) would be different. My job, my musical tastes, my dress sense, they would all be different. My life would never be boring. Now, overrun by kids and work and financial stress, all I crave sometimes is a boring life with some peace and quiet.

Maybe you can relate: when you go out with mates you try and cram a month's worth of hedonism into one night and it takes you a week to recover. You want to lose weight and you've tried every diet known to man, but sometimes it seems that food and drink are the only avenues of pleasure left open to you and you feel cheated without a curry and a glass of Cab Sav. You're desperately holding onto a job you don't even want and dreams of the Lotto have given way to dreams of a redundancy package.

Written in the style of a spoof PowerPoint business report, Man vs Life is a humorous look at the psyche of the married man in his 30s and 40s, who works in an office and is overrun by children and financial stress. It gently mocks his domestic situation and the crises he faces on a daily basis.

Unfortunately for both the town and the circus, however, entertainment isn't the only opportunity the carnival presents. Hidden within Ilurian, a guild of thieves and scoundrels has been waiting for just such an occasion to launch a campaign of theft and murder—leaving the strangers from the circus to take the blame.
