Broken Homes (Folly 04) A Paperback \$14.95 www.infinitas.com.au/Product.php?bar=9780756409609

My name is Peter Grant, and I am a keeper of the secret flame -- whatever that is.

Truth be told, there's a lot I still don't know. My superior Nightingale, previously the last of England's wizardly governmental force, is trying to teach me proper schooling for a magician's apprentice. But even he doesn't have all the answers. Mostly I'm just a constable sworn to enforce the Queen's Peace, with the occasional help from some unusual friends and a well-placed fire blast.

With the new year, I have three main objectives,

a) pass the detective exam so I can officially become a DC,

b) work out what the hell my relationship with Lesley Mai, an old friend from the force and now fellow apprentice, is supposed to be, and most importantly,

c) get through the year without destroying a major landmark.

Two out of three isn't bad, right?

A mutilated body in Crawley means another murderer is on the loose. The prime suspect is one Robert Weil, who may either be a common serial killer or an associate of the twisted magician known as the Faceless Man -- a man whose previous encounters I've barely survived. I've also got a case about a town planner going under a tube train and another about a stolen grimoire.

But then I get word of something very odd happening in Elephant and Castle, on a housing estate designed by a nutter, built by charlatans, and inhabited by the truly desperate. If there's a connection to the Crawley case, I'll be entering some tricky waters of jurisdiction with the local river spirits. We have a prickly history, to say the least. Just the typical day for a magician constable.

In DARK WOLF, the breathtaking story continues as the bonds of family are imperiled, and the fate of two lovers lies hidden in the seductive shadows between life and death.

Christopher Golden

Snowblind Hardcover \$34.95 www.infinitas.com.au/Product.php?bar=9781250015310

In Christopher Golden's first horror novel in more than a decade---a work reminiscent of early Stephen King---*Snowblind* updates the ghost story for the modern age.

The small New England town of Coventry had weathered a thousand blizzards . . . but never one like this. Icy figures danced in the wind and gazed through children's windows with soul-chilling eyes. People wandered into the whiteout and were never seen again. Families were torn apart, and the town would never be the same.

Now, as a new storm approaches twelve years later, the folks of Coventry are haunted by the memories of that dreadful blizzard and those who were lost in the snow. Photographer Jake Schapiro mourns his little brother, Isaac, even as---tonight---another little boy is missing. Mechanic and part-time thief Doug Manning's life has been forever scarred by the mysterious death of his wife, Cherie, and now he's starting over with another woman and more ambitious crimes. Police detective Joe Keenan has never been the same since that night, when he failed to save the life of a young boy . . . and the boy's father vanished in the storm only feet away. And all the way on the other side of the country, Miri Ristani receives a phone call . . . from a man who died twelve years ago.

As old ghosts trickle back, this new storm will prove to be even more terrifying than the last.

Spellbinding in scope and rooted deeply in classic storytelling, Christopher Golden has written a chilling masterpiece that is the best work of his career and a standout supernatural thriller. With richly textured characters, scarred and haunted by the ghosts of those they loved most, *Snowblind* is rooted deeply in classic storytelling. Christopher Golden has written a chilling masterpiece that is both his breakout book and a standout supernatural thriller.

Only the Good Die Young (Ghost For Hire 01) A Paperback \$14.95 www.infinitas.com.au/Product.php?bar=9780451416995

You know the theory that ghosts are energy trapped when someone dies violently? It's true. I know it for a fact....

My name is Jensen Murphy, and thirty years ago, I was just an ordinary California girl. I had friends, family, a guy who might have been the One.

Ordinary - until I became a statistic, one of the unsolved murders of the year. Afterward, I didn't go anywhere in pursuit of any bright light - I stayed under the oak tree where my body was found, and relived my death over and over. So when a psychic named Amanda Lee Minter pulled me out of that loop into the real world, I was very grateful.

Now I'm a ghost-at-large - rescued by Amanda (I found out) to be a supernatural snoop. I'm helping her uncover a killer (not mine?she promises me we'll get to that), which should be easy for a spirit. Except that I've found out that even ghosts have enemies, human - and otherwise?

Peter F Hamilton

Great North Road A Paperback \$14.95 www.infinitas.com.au/Product.php?bar=9780345526670

Peter F. Hamilton's riveting new thriller combines the nail-biting suspense of a serial-killer investigation with clear-eyed scientific and social extrapolation to create a future that seems not merely plausible but inevitable.

A century from now, thanks to a technology allowing instantaneous travel across light-years, humanity has solved its energy shortages, cleaned up the environment, and created far-flung colony worlds. The keys to this empire belong to the powerful North family - composed of successive generations of clones. Yet these clones are not identical. For one thing, genetic errors have crept in with each generation. For another, the original three clone 'brothers' have gone their separate ways, and the branches of the family are now friendly rivals more than allies.

Or maybe not so friendly. At least that's what the murder of a North clone in the English city of Newcastle suggests to Detective Sidney Hurst. Sid is a solid investigator who'd like nothing better than to hand off this hot potato of a case. The way he figures it, whether he solves the crime or not, he'll make enough enemies to ruin his career.

Yet Sid's case is about to take an unexpected turn: because the circumstances of the murder bear an uncanny resemblance to a killing that took place years ago on the planet St. Libra, where a North clone and his entire household were slaughtered in cold blood. The convicted slayer, Angela Tramel, has always claimed her innocence. And now it seems she may have been right. Because only the St. Libra killer could have committed the Newcastle crime.

Problem is, Angela also claims that the murderer was an alien monster.

Now Sid must navigate through a Byzantine minefield of competing interests within the police department and the world's political and economic elite . . . all the while hunting down a brutal killer poised to strike again. And on St. Libra, Angela, newly released from prison, joins a mission to hunt down the elusive alien, only to learn that the line between hunter and hunted is a thin one.

Wolves Trade Paperback \$29.99 www.infinitas.com.au/Product.php?bar=9780575119734

A chilling literary dystopia for those who love Iain Banks and J. G. Ballard.

The new novel from Simon Ings is a story that balances on the knife blade of a new technology. Augmented Reality uses computing power to overlay a digital imagined reality over the real world. Whether it be adverts or imagined buildings and imagined people with Augmented Reality the world is no longer as it appears to you, it is as it is imagined by someone else. Ings takes the satire and mordant satirical view of J.G. Ballard and propels it into the 21st century.

Two friends are working at the cutting edge of this technology and when they are offered backing to take the idea and make it into the next global entertainment they realise that wolves hunt in this imagined world. And the wolves might be them.

A story about technology becomes a personal quest into a changed world and the pursuit of a secret from the past. A secret about a missing mother, a secret that could hide a murder. This is no dry analysis of how a technology might change us, it is a terrifying thriller, a picture of a dark tomorrow that is just around the corner.

Blood Oranges (Siobhan Quinn 01) Trade Paperback \$22.95 www.infinitas.com.au/Product.php?bar=9780451465016

My name's Quinn.

If you buy into my reputation, I'm the most notorious demon hunter in New England. But rumors of my badassery have been slightly exaggerated. Instead of having kung-fu skills and a closet full of medieval weapons, I'm an ex-junkie with a talent for being in the wrong place at the right time. Or the right place at the wrong time. Or - whatever.

Wanted for crimes against inhumanity I (mostly) didn't commit, I was nearly a midnight snack for a werewolf until I was 'saved' by a vampire calling itself the Bride of Quiet. Already cursed by a werewolf bite, the vamp took a pint out of me too.

So now - now, well, you wouldn't think it could get worse, but you'd be dead wrong.

www.infinitas.com.au/Product.php?bar=9780440423232

When dealing with a masterpiece, only the best will do. That's why writer Daniel Abraham and illustrator Tommy Patterson were chosen to adapt George R. R. Martin's beloved fantasy classic *A Game of Thrones* as a graphic novel. And as anyone who has read the previous two collected volumes of the ongoing series can attest, the result has been a stunning tour de force faithful in every respect to its brilliant original.

In King's Landing, Lord Eddard Stark of Winterfell - the Hand of King Robert Baratheon - is surrounded by enemies. Some are openly declared, such as Ser Jaime Lannister and his sister, Queen Cersei. Others are hidden in the shadows. Still others wear the smiling mask of friends. But all are deadly, as Eddard is about to discover.

Nor is the enmity between Eddard and the Lannister siblings the sole source of friction between these powerful noble families. For Tyrion Lannister, the Imp - whose stunted, twisted body houses the mind of a genius - has but lately won his freedom from Lady Catelyn Stark, Eddard's wife, who had accused him of attempting to murder her youngest son, Brandon. Now he seeks out his father, his restless thoughts bent on revenge.

Far to the north, the bastard Jon Snow, newly sworn to the Night's Watch, takes the first faltering steps toward a destiny stranger than he could ever dream - a destiny that will bring him face-to-face with unspeakable horrors from beyond the edge of the world. While across the Narrow Sea, Daenerys Targaryen, wed to the great Dothraki warlord Khal Drogo, and pregnant with his child - a son prophesied to conquer the world - will see her own destiny take an unforeseen turn.

Promise of Blood (Powder Mage 01) B Paperback \$19.99 www.infinitas.com.au/Product.php?bar=9780356502007

An explosive epic fantasy debut for fans of George R. R. Martin and Brent Weeks, which starts with a bloody coup and has action and intrigue on every page.

'The Age of Kings is dead. And I have killed it.'

Field Marshal Tamas's coup against his king sends corrupt aristocrats to the guillotine and brings bread to the starving. But it also provokes war in the Nine Nations, internal attacks by royalist fanatics and greedy scrambling for money and power by Tamas's supposed allies: the Church, workers' unions and mercenary forces.

Stretched to his limit, Tamas relies heavily on his few remaining powder mages, including the embittered Taniel, a brilliant marksman who also happens to be Tamas's estranged son, and Adamat, a retired police inspector whose loyalty will be tested to its limit.

Now, amid the chaos, a whispered rumour is spreading. A rumour about omens of death and destruction. Just old peasant legends about the gods returning to walk the earth. No modern educated man believes that sort of thing. . .

But perhaps they should.

John Sladek

John Sladek SF Gateway Omnibus (*Gateway Omnibus*) Trade Paperback \$39.99 www.infinitas.com.au/Product.php?bar=9780575110700
An SF Gateway Omnibus featuring three classic works from John Sladek.

From the vaults of The SF Gateway, the most comprehensive digital library of classic SFF titles ever assembled, comes an ideal introduction to the razor-sharp wit of John Sladek.

An important voice in the New Wave movement, Sladek had stories published in Harlan Ellison's seminal anthology, DANGEROUS VISIONS, as well as in Michael Moorcock's ground-breaking NEW WORLDS magazine. Perhaps best known for the ambitious robot tales RODERICK and RODERICK AT RANDOM, he is now recognized as one of SF's most brilliant satirists. This omnibus collects novels THE REPRODUCTIVE SYSTEM, THE MULLER-FOKKER EFFECT and BSFA AWARD-winning TIK-TOK.

THE REPRODUCTIVE SYSTEM: Wompler's Walking Babies aren't selling like they used to, so the company develops Project 32, producing self-replicating mechanisms designed to repair inter-cellular breakdowns. But then the metal boxes begin crawling about the laboratory, feeding voraciously on metal and multiplying. . .

THE MULLER-FOKKER EFFECT: Bob Shairp - a writer and dreamer - has agreed to be a guinea-pig in a military experiment to find out if his personality can be turned into data and stored on computer. But a computing error quickly destroys Shairp's physical body, leaving his mind stranded in an encoded world. Can the process be reversed?

TIK-TOK: Something has gone very seriously wrong with Tik-Tok's 'asimov circuits'. They should keep him on the straight and narrow, following Asimov's First Law of Robotics: 'a robot shall not injure a human being, or through inaction allow a human being to come to harm.' But they don't. While maintaining the outward appearance of a mild-mannered robot, albeit one with artistic tendencies and sympathy for the robot rights movement, Tik-Tok's real agenda is murderously different. He seems intent on injuring - preferably fatally - as many people as possible. Almost inevitably, a successful career in crime and general mayhem leads to a move into politics and Tik-Tok becomes the first robot candidate for Vice President of the United States.

V-S Day Hardcover \$34.95 www.infinitas.com.au/Product.php?bar=9780425259740

With a gift for visionary fiction that "would make Robert A. Heinlein proud" (Entertainment Weekly), three-time Hugo Award-winning author Allen Steele now imagines an alternate history rooted in an actual historical possibility: What if the race to space had occurred in the early days of World War II? It's 1941, and Wernher von Braun is ordered by his fuhrer to abandon the V-2 rocket and turn German resources in a daring new direction: construction of a manned orbital spacecraft capable of attacking the United States. Work on the rocket--called Silvervogel--begins at Peenemunde. Though the plan is top secret, British intelligence discovers it and brings word to Franklin Roosevelt. The American president determines that there is only one logical response: The United States must build a spacecraft with the ability to intercept Silvervogel and destroy it. Robert Goddard, inventor of the liquid-fuel rocket, agrees to head the classified project. So begins a race against time between two secret military programs and two brilliant scientists whose high-stakes competition will spiral into a deadly game of political intrigue and unforeseen catastrophes played to the death in the brutal skies above America.

What if our civilization is more advanced than we know?

Imagine a world in which decades of technological advances have been suppressed in an effort to prevent disruptive change.

Are smartphones really humanity's most significant innovation since the moon landings? Or can something else explain why the bold visions of the 20th century - fusion power, genetic enhancements, artificial intelligence, cures for common diseases, extended human life, and a host of other world-changing advances - have remained beyond our grasp? Why has the high-tech future that seemed imminent in the 1960s failed to arrive? Perhaps it did arrive - but only for a select few.

Particle physicist Jon Grady is ecstatic when his team achieves what they've been working toward for years: a device that can reflect gravity. Their research will revolutionize the field of physics - the crowning achievement of a career. Grady expects widespread acclaim for his entire team. The Nobel Prize. Instead, his lab is locked down by a shadowy organization whose mission is to prevent at all costs the social upheaval sudden technological advances bring. This Bureau of Technology Control uses the advanced technologies they have harvested over the decades to fulfill their mission.

They are living in our future.

Presented with the opportunity to join the BTC and improve his own technology in secret, Grady resists, and is instead thrown into a nightmarish high-tech prison built to hold rebellious geniuses like himself. It's a job she's uniquely suited for, thanks to the secret talent that gives her an uncanny edge: Charlie can see the spirits of the dead. This blessing - or curse - gives Charlie the power to hunt down madmen and murderers. It's also turned her love life upside down by drawing her into a hopelessly passionate relationship with the lingering ghost of a charismatic bad boy.

But there's little time for romance when murder comes pounding at Charlie's door in the form of a terrified young woman fleeing a homicidal maniac. Saving her life places Charlie squarely in the sights of a sadistic predator nicknamed 'the Gingerbread Man.' Matching wits with this cunningly twisted opponent will require all of Charlie's expert skills. But even with her devilish 'guardian angel', not to mention her favourite flesh-and-blood Federal agent, Tony Bartoli, watching her beautiful back, the Gingerbread Man's horrifying grin might be the last thing Charlie ever sees.

The people of Earth now know that the human Colonial Union has kept them ignorant of the dangerous universe around them. Other alien races have come on the scene and formed a new alliance - an alliance against the Colonial Union. And they've invited the people of Earth to join them. For a shaken and betrayed Earth, the choice isn't obvious or easy.

Against such possibilities, managing the survival of the Colonial Union won't be easy, either. It will take diplomatic finesse, political cunning, and a brilliant "B Team", centered on the resourceful Lieutenant Harry Wilson, that can be deployed to deal with the unpredictable and unexpected things the universe throws at you when you're struggling to preserve the unity of the human race.

Scott Sigler

Pandemic (Infected 03) Hardcover \$34.95 www.infinitas.com.au/Product.php?bar=9780307408976

Scott Sigler's *Infected* shocked readers with a visceral, up-close account of physical metamorphosis and one man's desperate fight for sanity and survival, as 'Scary' Perry Dawsey suffered the impact of an alien pathogen's early attempts at mass extinction. In the sequel *Contagious*, Sigler pulled back the camera and let the reader experience the frantic national response to this growing cataclysm.

And now in *Pandemic*, the entire human race balances on the razor's edge of annihilation, beset by an enemy that turns our own bodies against us, that changes normal people into psychopaths or transforms them into nightmares.

To some, Doctor Margaret Montoya is a hero - a brilliant scientist who saved the human race from an alien intelligence determined to exterminate all of humanity. To others, she's a monster - a mass murderer single-handedly responsible for the worst atrocity ever to take place on American soil.

All Margaret knows is that she's broken. The blood of a million deaths is on her hands. Guilt and nightmares have turned her into a shut-in, too mired in self-hatred even to salvage her marriage, let alone be the warrior she once was.

But she is about to be called into action again. Because before the murderous intelligence was destroyed, it launched one last payload - a soda can-sized container filled with deadly microorganisms that make humans feed upon their own kind.

That harmless-looking container has languished a thousand feet below the surface of Lake Michigan, undisturbed and impotent . . . until now.

Part Cthulhu epic, part zombie apocalypse and part blockbuster alien-invasion tale, *Pandemic* completes the *Infected* trilogy and sets a new high-water mark in the world of horror fiction.

It's Not Rocket Science B Paperback \$19.99 www.infinitas.com.au/Product.php?bar=9780751545005

An engaging, accessible and fascinating look at science's 'best bits' by popular comedian and particle physicist Ben Miller.

Black holes. DNA. The Large Hadron Collider. Ever had that sneaking feeling that you are missing out on some truly spectacular science?

You do? Well, fear not, for help is at hand.

Ben Miller was working on his Physics PhD at Cambridge when he accidentally became a comedian. But first love runs deep, and he has returned to his roots to share with you all his favourite bits of science. This is the stuff you really need to know, not only because it matters but because it will quite simply amaze and delight you.

'Let me show you another, perhaps less familiar side of Science; her beauty, her seductiveness and her passion. And let's do it quickly, while Maths isn't looking' - Ben Miller

'This book makes climate change actually seem interesting. Not just important - it's obviously important - but interesting. As a result I bought lots of other books about climate change, something I now regret' - David Mitchell

Ben Miller is, like you, a mutant ape living through an Ice Age on a ball of molten iron, orbiting a supermassive black hole. He is also an actor, comedian and approximately one half of Armstrong & Miller. He's presented a BBC Horizon documentary on temperature and a Radio 4 series about the history of particle physics, and has written a science column for The Times. He is slowly coming to terms with the idea that he may never be an astronaut.

The journey into high adventure soars on!

Let the secret history of the world be told - of the alien virus that struck Earth after World War II, and of the handful of survivors who found they now possessed superhuman powers. Some were called Aces, endowed with powerful mental and physical prowess. The others were Jokers, tormented by bizarre mind or body disfigurements. Some served humanity. Others wreaked terror. Now, forty years later, under the streets of Manhattan an evil genius unleashes the powers of darkness - and Aces and Jokers alike must fight for their lives.

Here, in the third volume of the Wild Cards series, seven of science fiction's most gifted writers take you on a journey of wonder and excitement.

Infinitas Groups

As of early 2014, all these groups are growing and new members are welcome.

Review Group: We now meet at Mars Hill Café in George St Parramatta, near the Lennox Bridge over the river, at 6:30pm on the third Thursday of each month. We can order drinks and meals upstairs before descending into their basement which has great ambiance.

Author of discussion for 20th February is Connie Willis, but this is just a discussion starter. All welcome.

Dungeons & Dragons: Currently includes Pathfinder and 4th edition D&D. Other games depending upon willing leaders. The Infinitas Gaming Group meets at: Parramatta Council Library. 4th ed D&D is in the Retro Room. This is on the mezzanine level off the stairwell and suits gaming well with soundproofing, kitchenette and tables. Pathfinder is in the River Room which is on the top floor.

Games are on fortnightly Saturday mornings starting at 10am, finishing up around 2pm. Bring your own dice.

See: <http://www.infinitas.com.au/DungeonsAndDragonsAtInfinitas.php>

To co-ordinate attendance and games some players have set up: <https://www.facebook.com/groups/157405127769146/>

We could find room for another game if there were another DM to run it - any keen volunteers? You would need to bring prepared characters and module as until players join a game they would not be able to generate their character.

Writers' Group: The Infinitas Writers' Group has a new website at <http://www.infinitaswriters.com/> to encourage communication and new recruits. There is a forum for discussing their writing. They have a new venue for meetings - the Shakespeare Hotel in Surry Hills, the previous pub proved unsuitable. Meetings are every second month, on odd months.
